Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 32 **August 10, 2012** *. . .a Friday morning report on the Coin Market*

ANA CONVENTION IN FULL SWING
HERITAGE BRINGS IN $27.5 MILLION

The Market in Depth

Wholesale business dominated the ANA/PNG World's Fair of Money Pre-Show in Philadelphia last weekend for dealers and invited guests. While held in a portion of the same huge room as the primary show, this bourse looked small, but business was showing strength as dealers scooped up most any coins that were fresh to the market and uncommon, solidly graded and fairly priced. Type coins and rare Gold were the stand-outs in this solid wholesale climate. A few special deals have appeared on the market, as is often the case during the big ANA event of the year. One of those is the reappearance of part of the well-publicized Duke's Creek Collection of Gold coins – a complete collection of Dahlonega Half Eagles in the finest or near finest condition. This collection is being brokered by Mid-American Rare Coin Galleries. The new format for the ANA/PNG Pre-Show allows dealers to transition into the World's Fair of Money coin show without having to pack up and change venues from a privately run pre-convention show. A pre-convention auction by Heritage was held at another location totally separate from ANA-sanctioned events, and totaled $27.5 million with a top lot of $1,057,500 for a 1907 $20 Saint-Gaudens Ultra High Relief Sans Serif Edge, Judd-1907 graded PCGS PR58. We have listed several highlights herein. An official ANA/PNG Pre-Show auction was conducted by Stack's Bowers, though the best material offered by the company has been reserved for auction sessions during the official World's Fair of Money convention.

1864	$20 Liberty, UCam, CAC	NGC PR65★	$352,500

It was announced during the Pre-Show that a decision has been made by the PNG to name CoinPlex as its official electronic trading network. Proceeds of part of the CoinPlex membership fees of PNG dealers will be contributed back to the PNG from this point on. CoinPlex provides a platform for trading CAC stickered coins as well as PCGS, NGC and Plus graded material, similar to the Certified Coin Exchange. As CAC evolves, in an attempt to bring stricter grading standards back and enhance sight-unseen trading, coin buyers are often left wondering if many of the unstickered coins on the market have already been submitted to CAC in attempts to get endorsed. Controlling "gradeflation" along with improving consumer protection are at the center of this market evolution.

This Week's Market

MERCURY DIMES: Only 1918 issues in MS65FB suffered a 10% setback. Aside from the 1920-S example listed herein among the highlights, several other key-date Mercury Dimes featured during Heritage's auction in Philadelphia performed splendidly as well, particularly a 1916-D in PCGS MS64FB hauling in $28,200, and a 1942/1-D in PCGS MS66FB fetching $35,250; both are CAC'd.

WALKING LIBERTY HALVES: Interest for Walkers as a series has not diminished even though certain issues concluded their PA Bidding sessions with results that were a bit below expectations. A 1919-S in NGC MS67, however, managed to hammer nicely over the $35,000 mark.

DOLLARS: Morgan Dollar Bids are mostly on the upside, largely due to greater need for early date CC-Dollars in MS64. Ironically, scarcer 1890-CC issues in comparable grade got a bit singed with a $140 pull-back. Those very scarce 1883-S Dollars in MS65 continue to rise steadily. Last year, these issues gained by nearly 11% and are up by 6% so far this year. Generic Peace Dollars in MS63 and MS64 are having sustainability problems, as those of the latter grade have slipped below the $50 level once again. 1926-D issues in Gem recovered the $20 lost just last week.

PROOF SETS AND MINT SETS: Both the 2010-S Clad Proof sets and Quarter Proof sets are Bidding higher this week as is the 1979-S Type 2 Proof Sets with dealers trying to fill gaps in their inventories. Mint Sets are stable with no negative signs.

COMMEMORATIVES: The narrow $25 spread between Antietam Halves in MS65 and their peers in MS66, resulting from a Bid increase for those of the former grade in mid-June, left reason to anticipate a Bid increase for those of the latter grade but, unfortunately, those of the former descended by $40. As Gettysburg and Hawaiian issues in MS64 drifted lower as well, comparably graded Hudsons gave up $60 while those Pan-Pac Halves in MS66 have now cumulatively shed 20% this year. Within the same grade column, Pan-Pac Gold Dollars were discounted by $100, while a $300 reduction incurred by 1917 McKinley issues constitutes a rather hard drop of 10%.

TYPE: While early key-date Lincoln Cents remain hot, the market for early Matte Proof examples weakened a bit as these issues in PR65RD fell by $250. By a smaller margin, Gem Proof Buffalo Nickels slid along with Liberty Seated Dimes with Legend in PR64. More than a few varieties of Liberty Seated Halves in various Circulated grades are on the rise, some quite significantly, as market-makers are in need of these issues in quantities.

GOLD: Numerous Gold Type issues dipped lower due to consequences of a pull-back in Gold Spot late last week, even though the yellow metal has since adjusted itself back up to its previously higher close. Demand for Circulated Type 3 Gold Dollars has quelled a tad along with that for several other fractional denominated generics. Common $20 Type 3 Libs in all but the Gem grades reacted to another phase of retraction amidst the continuing volatility in the market.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

ANA SHOW DEMONSTRATES STRENGTH
1873-CC DIME FETCHES $1.84 MILLION

The Market in Depth

A huge bourse, the largest ever, dominated the Philadelphia ANA World's Fair of Money. Activity was bustling with an upbeat market mood. While several dealers reported so-so activity Thursday, by Friday everyone seemed happy with the business they'd conducted. Most anything that was fresh, reasonably scarce and solidly graded or of premium quality had asking prices that were on the high side right out of the box. However, a mild paranoia is starting to creep into the market if a slab doesn't have a green CAC sticker – Has the coin been sent in to CAC and rejected? Coins that are perceived as having been maxed out with their grades by the traditional grading services are just sitting around in inventories, waiting for collectors to rescue them. These are the types of coins that are candidates for downgrades, hopefully getting a + designation by PCGS or NGC and then possibly getting a CAC sticker. Then they'll likely be appreciated and possibly sell for premium prices that could end up being near or equal to the discounted prices of their maxed out higher grades.

It was standing room only at the Stack's Bowers Battle Born auction, and not just during the moment when the unique 1873-CC Dime hammered for $1.6 million, finally fetching $1.84 million after the buyer's fee was added. Participants and observers lined the walls and nearly obscured the view of the auction staff working the phones in the back of the room as the collection of Carson City Mint coinage fell to the gavel, netting $9.98 million. The sale of the Dime attracted so much attention that even the local cabbies were talking about it. After the Battle Born sale ended, Rarities Night began. The crowd thinned out some, but strong, competitive Bidding carried on by participants in the room as well as by others not in attendance. In the end, the Stack's Bowers Galleries official World's Fair of Money Auction took in $30.3 million.

This major bellwether ANA convention and coin show demonstrated that the coin market will transition into the fall season on a positive note. While business activity was not as strong as that of last year, when Gold prices were dancing around their all time highs, solid market strength was apparent this year in Philadelphia. After a sleepy summer, dealers have new inventory to offer on the trading networks and to their customers, and grading services have a boost in business, but some collectors will get tapped out on available funds. This factor sometimes comes into play during early fall because of ANA convention related business. The Long Beach Expo will be the next market test for dealers September 6-8, while Whitman has elected to forego its fall Philadelphia show that would have taken place right on the heels of this ANA convention, to the delight of some vocal dealers who think there are too many back-to-back shows.

This Week's Market

CENTS THRU HALVES: Dealers are hot for '55 Denver minted Nickels, while their 1950-D key counterparts remain suppressed. State Quarters suffer as dealers jettison their stale overstock.

MERCURY DIMES: More small and incremental gains are posted for 1919, 1921, and 1921-D Mercs in MS63 and MS64, as these key-date issues have been steadily on the rise.

WALKING LIBERTY HALVES: Among the finest early-date Walkers offered up during the Stack's Bowers auction in Philadelphia was an eye-catching 1917 issue, graded NGC MS67, taking in $8,338. A bit of upward movement for a couple of late-date Walkers in AU was accompanied by a decline for 1944-S Walkers in Gem, now Bidding well below that $300 mark despite their popularity.

DOLLARS: A few scarce-date Morgans in MS63-MS64 are higher, but an over-supply of common dates in MS66 is continuing to place pressure on wholesalers to offer these cartwheels at even greater discounts. With all the resurgent interest for so many Choice DMPL Dollars, it's hard to imagine that any of them in Gem would incur a serious setback, but that's what happened to 1881-O issues in MS65DMPL as these plunged by 20%. The fascination with 1921-S Morgan Dollars in MS66 waned a bit too, as these issues suffered a reversal of $500, and comparably graded generic Peace Dollars sank deeper into the bargain bin as well while 1922-S issues in MS64 sold off to a 14% loss.

PROOF SETS AND MINT SETS: At least one dealer is paying 20% over Bid for unopened 1965 thru 1976 Mint Sets and 10% over Bid for those dated 1976 thru 2000 in sealed mailing containers.

COMMEMORATIVES: Commems still haven't been able to stir up much excitement at auction or on the bourse floor, even in exceptional quality. A wonderfully toned Robinson-Arkansas Half, however, graded PCGS MS67 with CAC approval, fetched $7,475 during the Stack's Bowers Philly auction. Delaware and Hawaiian Halves, those of the former in MS65 and of the latter in MS63, all traded lower this week. Lincoln issues in MS66 and Texas Type Halves in MS63 were the only other two Silver Commems to fall short. $2½ Pan-Pacs in MS66 succumbed to downside pressure as well, falling by $350.

TYPE: Early Coppers once again proved to be among the top auction performers during last week's ANA convention, which included some late 18th and early 19th century Large Cents, Proof Flying Eagle and Indian Cents of Gem quality. Common Proof Three Cent Silvers, Type 3, added more muscle to their gains of two weeks ago.

GOLD: Gold Spot has once again slipped below the $1,600 per ounce benchmark after surpassing the $1,620 trading level during the ANA show. Much of the Gold Type segment remains as unsettled as the Spot market, with Bids for the most actively traded generic material heading further south. $3 Indian Princesses in MS63, however, resumed in their advance and are trading 7% higher since the start of the summer, and comparably graded $5 Indians have gained 17% over the same period.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

SHOT IN THE ARM FOR CC MATERIAL
PRECIOUS METALS GET A BOOST

The Market in Depth

Dealers have been busy with post-ANA convention business. Now many collectors' funds will be tapped out, as usual, from buying coins in the ANA auctions and from purchases from dealers who attended the Philadelphia bourse event. Coin market trading is fairly stable as we transition into the fall season. Gold has finally reached the $1,640 mark, while Silver has surpassed $29; neither metal has been at these prices since May and June, respectively. Platinum has also seen quite a boost, jumping up over $100 per ounce since last week, now at $1,508. Coin shows, big and small, around the country are well attended by "life style" collectors, but the bullion hunters, so prevalent last year at this time while Gold was hitting its all-time highs, have thinned in numbers, as have bullion sellers. Many of them are waiting to see what happens in the Presidential election – more of the same, or a shake-up with a new administration and economic approach? As a result, dealers who operate brick and mortar coin shops are having a slower time of things, and a deeper connection into the market with a presence at shows, trading network participation, and internet based sales is needed to sustain a vibrant business. Past purchases from the public have resulted in the coin market continuing to see an inventory overhang of some items like Proof Sets, common Silver Dollars, and even a few key coins, like 1932-D and S Washington Quarters. One notable item has been plummeting in price during recent months, the Gold one ounce 2009 $20 Ultra High Relief. It has fallen from a Bid of $2,825 in late January to $2,275—a drop of 20%.

Dealers and collectors continue to beg for scarce and rare high grade coins, and excitement has been stirred for CC mintmarked coins by the recent sale of the Battle Born Collection of Carson City Mint Coinage by Stack's Bowers Galleries. Sellers, especially of Liberty Seated Carson City Mint coins, should be in a strong bargaining position to get good prices for what they have, while CC Mint Gold has always had a strong niche. Liberty Seated material with the CC mintmark is on the rise as dealers are remarking that they're having trouble locating these coins, especially in problem-free Circulated condition. Strong Bid increases for Seated CC Half Dollars in grades thru AU50 are seen in the August Quarterly. The combination of the lore of the old west, from where these coins came, and their double-letter mintmarks have created an irresistible attraction for many collectors.

Check your statements as several dealers recently had their credit/debit cards compromised, though it remains unclear what the common connection is, if any. Coming up soon is the Long Beach Expo September 6-8, with an auction by Heritage. Bonhams will hold an auction September 2 in Los Angeles, and the Goldbergs will host a Pre-Long Beach sale September 2-5, also in the City of Angels.

This Week's Market

MERCURY DIMES: Bidder enthusiasm in recent public auctions wasn't quite strong enough to maintain current Bid levels for those intriguing 1942/41 Mercs in MS65, which pulled back by $1,000.

WALKING LIBERTY HALVES: Semi-key 1919-S Walkers in MS64 also got a bit of a dull reception when a few of these issues appeared at recent auction venues and declined from their previous Bid by a grand. Gem 1939-D and 1941-S Walkers are lower, with the former sliding by 13%.

DOLLARS: Several better-date Morgan Dollars in Choice Unc and lower grades are still being pursued, as their slightly higher Bids will attest. Common dates in Gem are firming up a bit in PCGS slabs. 1879-CC Capped Die cartwheels in MS65 disappointedly turned course to settle $3,200 lower, and comparably graded 1885-CC issues fell back below $900. The auction gavel came down after too few Bidders showed interest for one of those powerhouse 1892-S issues in MS64, taking them down by $5,000. Challenges persist for several Peace Dollars, including key date 1928 issues in MS64, and those not so easy to find 1926-D Dollars in MS66. Final year 1935-S examples in MS65 are down by 17% since January.

PROOF SETS AND MINT SETS: With Silver up, so are a half dozen Silver Proof Sets. Clad 2008 Proof Sets are now needed at $66 each; that's $16 more than the Silver 2008 Proof Sets. At least one dealer is looking to pick up around 200 1970 Mint Sets and will pay 9% more to get them.

COMMEMORATIVES: Silver Commems saw less action this week as Gettysburg Halves in MS66 were the only issues on a negative path to submerge below that long held $1,000 Bid level. Five percent higher offers are targeting Circulated Texas Type, including PDS Sets in XF. Auction results for Gold Commems, either CAC approved or Plus graded, may raise issues of real concern over their stability now due to some rather steep declines posted for several issues in MS63-MS65. The most drastic drop is for 1904 Lewis & Clark Dollars in MS64. San Francisco mintmarked 2012-S Proof Silver Eagles are lower following the release of the Making American History Coin and Currency Sets.

TYPE: Draped Bust Half Dimes in MS64 and Liberty Seated Dimes With Arrows (1873-74) in MS65 both receded to even Bids of $20,000 and $3,000, respectively, and Barber Halves in MS64 persisted in their fluctuation to conclude the week $125 lower. On the upside, however, are Type 3 Three Cent Silver Pieces in PR63 thru PR65, all advancing again for another straight week with a cumulative average gain of more than 17% for the year. Renewed interest for No Motto Liberty Seated Halves in PR63 raised these issues by $75.

GOLD: Much generic Gold Type material benefited from a more buoyant Gold Spot market this week, especially Circulated Eagles and generic Double Eagles in nearly all grades. However, scarcer Type II $20 Libs in MS64, which were Bidding as high as $36,000 up until the end of January, lost another $3,000.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 35 August 31, 2012 *. . .a Friday morning report on the Coin Market*

EXPO ANCHORS IN LONG BEACH
PRECIOUS METALS STIMULATE MARKET

The Market in Depth

With continued strength in precious metal prices, interest in numismatic Gold has been stimulated in both bullion related coins and higher end grades. Mid-range grades have mild interest, unless their prices are near bullion levels. All four precious metals are higher – Gold, Silver, Platinum and Palladium, and are led by advances in Silver, which has surged from below $28 two weeks ago to more than $31 this week – a gain of greater than 10 percent. Volatility is expected this week as this is a popular time for vacations, and London has had a Monday Bank holiday, while the US takes a Labor Day holiday next Monday. When Gold surges, in addition to bullion, demand for scarce, rare and high-grade material increases as well. This scenario is plainly visible when a precious metal spike occurs just prior to and/or during a major coin show. As reported in previous weeks, Gold Bugs are anticipating another round of stimulus by the Fed in an attempt to boost the economy and improve the unemployment situation. On Friday, August 31, Fed Chairman Ben Bernanke addresses the economic symposium in Jackson Hole, Wyoming, with expectations of clues regarding what actions the Fed will take. Additionally, a couple of prominent major investors have been given publicity for having recently taken large positions in the Gold market, creating a bandwagon effect, driving Gold over $1,670 — a level not seen since April.

Dealers are reminded to take precautions in their security procedures as Mac's Coins and Collectibles in Sunnyvale, CA was recently robbed by masked criminals. Numerous certified coins were taken including a 1797 $1 in an ANACS holder, an AU 1894 $1 graded by NGC, a 1955 Doubled Die Cent, graded AU details by NGC, and several slabbed CC Dollars. Another recent incident in the Chicago area was reported in which an attempted entry through the roof into a coin dealer's office was unsuccessful. A few of the many highlights from the Heritage auction to be held in conjunction with the September 6-8 Long Beach Expo have been listed herein.

This Week's Market

CENTS THRU HALVES: Proof Jefferson Nickel rolls are being discounted resulting in a rash of minus signs. Proof rolls of all other denominations are also dropping, but to a lesser extent.

MERCURY DIMES: Winged Liberties continue to go unappreciated among the collecting masses resulting in a stagnant market with no real changes to report.

WALKING LIBERTY HALVES: Too much supply and not enough takers for certain material can cause it to nosedive within a short period of time, and such was the case for 1939-D Walkers in MS65. These issues have dropped precipitously by 23% over just the past two weeks, ending with a Bid of $115. MS64 short-sets are now $1,526 as a result of the 1941-S and 1944-S increasing slightly.

DOLLARS: Circulated Dollars most affected by Silver Spot's return to above the $30 per ounce level were certain to get a dose of energy this week. However, the upward motion seen throughout the higher grade columns can be attributed to a continuing increase in demand for better-date cartwheels. Dealers are adding bait by way of higher Bids to lure more CC Dollars and some late-date S-Mint issues in MS63 into the market. 1924-S and key-date 1928 Peace Dollars in MS64, both of which faltered a bit last week, each bounced back to more than recoup their losses, while those of the latter issue also increased, gaining $100 in Gem. Four 2012 Grover Cleveland Presidential Dollars (first term) with missing edge lettering were found in 2012-P rolls purchased from the US Mint.

PROOF SETS AND MINT SETS: Three of the five 2010 Proof Set options have jumped up in Bid with buyers needing quantities. Silver Mint Sets from 1959 thru 1964 are moving higher in response to a surge in Silver Spot.

COMMEMORATIVES: Bidders are offering $40 more for Alabama Halves in MS65 and higher amounts for New Rochelle and York issues in MS60 as well as for those of the latter issue in MS63. Bridgeport and Wisconsin Halves in MS65 have now declined 20% and 13%, respectively, since last month, and York issues in MS66 haven't seen the $300 Bid level in over a year. Goldbergs' Pre-Long Beach sale includes a 50-piece MS64-MS66 set in old green holders, all but two are CAC approved.

TYPE: Circulated Draped Bust Dimes with Heraldic Eagle drew a considerable amount of Bidder attention. Greater demand for Type II Three Cent Silvers in MS65 enabled these issues to finally attain the $2,000 Bid level. Recession or not, there's money on the sidelines waiting for the right coin to come up for grabs. A 1918-D Standing Liberty Quarter graded PCGS MS67FH realized $36,800 in Teletrade's Post-ANA sale. Dealers are hot for Bust Halves and are paying Bid for AU50, $310 for AU53, $360 for AU55, and $450 for AU58.

GOLD: Generic Gold Type is up across-the-board with denominations of $10 and $20 offering the most participation with $10 Indians up by 5% in AU50. Type II $20 Libs in MS64 bounced back to regain all and some more of their losses from last week.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

LONG BEACH EXPO IN PLAY
PRECIOUS METALS SOAR

The Market in Depth

Coming off a solid ANA show in Philadelphia a month ago, and with metals' prices firmly rising at present, dealers at the Long Beach Expo have an excellent environment this week in which to conduct business and kick off the fall trading season. Gold has risen nearly $100 an ounce during the past month, forcing prices for generic Gold Type to move higher. And, as is typical in a rising Gold market, even some of the common material in higher grades that is less sensitive to bullion related movement are being bought up by collector/investors in addition to many dealers purchasing for stock. Better dates are also often beneficiaries of this effect, and may begin to trade at higher levels. Silver Spot has ascended by more than 15% during the past month, attracting demand for numismatic products related to the white metal such as Circ Morgan and Peace Dollars and Circ bags of smaller denominations of 90% coinage.

However, on the higher end of numismatics – in the auction world, bills are coming due for credit extended at the public sales back in Philadelphia. Coins that haven't sold could put some dealers who have purchased at those auctions in a bit of a short-term cash crunch, temporarily taking them out of the market on the purchasing side. Some dealers are also seeing a generalized liquidity crunch across the market in their wholesale trading. Let's face it, business has been slower for many dealers this year, especially on the bullion side because of softer Gold and Silver prices, leaving buyers and sellers of precious metals items on the sidelines waiting for prices to begin another upward run. And now that has started. On Tuesday, this week, Gold briefly crossed over the $1,700 threshold, while Silver rose and stood at $32.35 an ounce.

Bonhams' auction, held in Los Angeles on September 2, brought in a total of $777,615 with a top lot of $146,900 for the Kellogg and Humbert 40.56 ounce Gold bar recovered from the S.S. *Central America*. Next on the list of highest realized lots were a pair of raw $50 1915-S Pan-Pacs, totaling $69,000 for the Round and $40,950 for the Octagonal. This recent surge in precious metal action also had a positive effect on the Ira and Larry Goldberg Pre-Long Beach auction in Los Angeles early this week. The sale reportedly totaled over $4 million, with a top lot of $253,000, an 1849 Mormon $20 Gold piece, graded NGC AU50. These results, which were better than anticipated for many could carry over to positively impact the Long Beach coin show as well. A significant amount of collectors and dealers will be in attendance targeting original high-end rare coins that are accurately graded and problem free. This material is being held in strong hands, and potential buyers may feel better about stretching their offers in order to consummate a deal in this upbeat market. Heritage's sale is up next as the official auctioneer of the Long Beach Expo which runs September 6-8.

This Week's Market

MERCURY DIMES: This was another week of little to no activity within the Winged Liberty Dimes segment. Many enthusiasts are watching two 1916-D issues up for auction this week, one graded PCGS MS63 with CAC approval, and another graded MS65FB by NGC.

WALKING LIBERTY HALVES: A considerable gain of nearly 18% for 1934 Walkers in MS64 allowed for these issues to settle at an even Bid of $100. Supporting Bids for most of the other prior-dated issues in this and lower Mint State grades remain unshaken and brisk.

DOLLARS: Silver Spot's rise to over $32 per ounce enabled Morgan Dollars in VG and Fine to maintain their upward trajectory from last week, as did a few slightly better than common issues in MS60 and MS63. Although several generic cartwheels in MS64 lost some steam, 1879-CC and 1892-CC Dollars of this grade are advancing for a second straight week, while those popular 1900-O/CC issues in MS65 are in a third straight week of ascent and have recovered all they had lost this year. Bid changes within the DMPL Dollar columns are reflecting only gainers, mostly for the more common dates. Better Peace Dollars remain in serious demand and have buyers available for those that are solid for the grade or near the top end without any problems aesthetically.

PROOF SETS AND MINT SETS: Several Silver Proof Sets are making noise in direct response to the recent boost in Spot Silver. Unfortunately, most of these new buy offers remain near and even below melt. 1970 Mint Sets and the 1976 3-Piece Silver Proof Sets have buyers looking for quantity.

COMMEMORATIVES: Two important Silver Commem Halves in MS65, the Monroe Doctrine and the Sesquicentennial, each pegged on $100 to their Bids, but the latter issues still have quite a bit of catching up to do in order to fully recover from their tumultuous decline back in early May. 1916 McKinley Gold Dollars in MS64 were shaken down by $20, consummating a 15% drop for these issues this year.

TYPE: Lots featuring Early Copper, along with those comprised of some of the earliest Draped and Capped Bust material, are among the most closely watched by serious collectors, many of whom are participating in the major auction venues this week. The most noteworthy activity within the Type segment insofar as the more common material is concerned involved some recovery of lost ground by Proof issues in PR64, which included 1913 Type I Buffalo Nickels, Liberty Seated Dimes With Legend, Liberty Seated Quarters and Halves, both of the With Motto variety.

GOLD: A flurry of plus signs adorn the Gold Type segment in reaction to the yellow metal's flirtations with the $1,700 per ounce level; however, not all generic issues were stimulated by the upswing in the Spot market. Gold Dollar issues slipped by the wave that boosted much of the fractional and $20 denominated material in a variety of grades. $3 Indian Princesses in MS63 continue in their phase of gradual recovery, now Bid $4,000.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

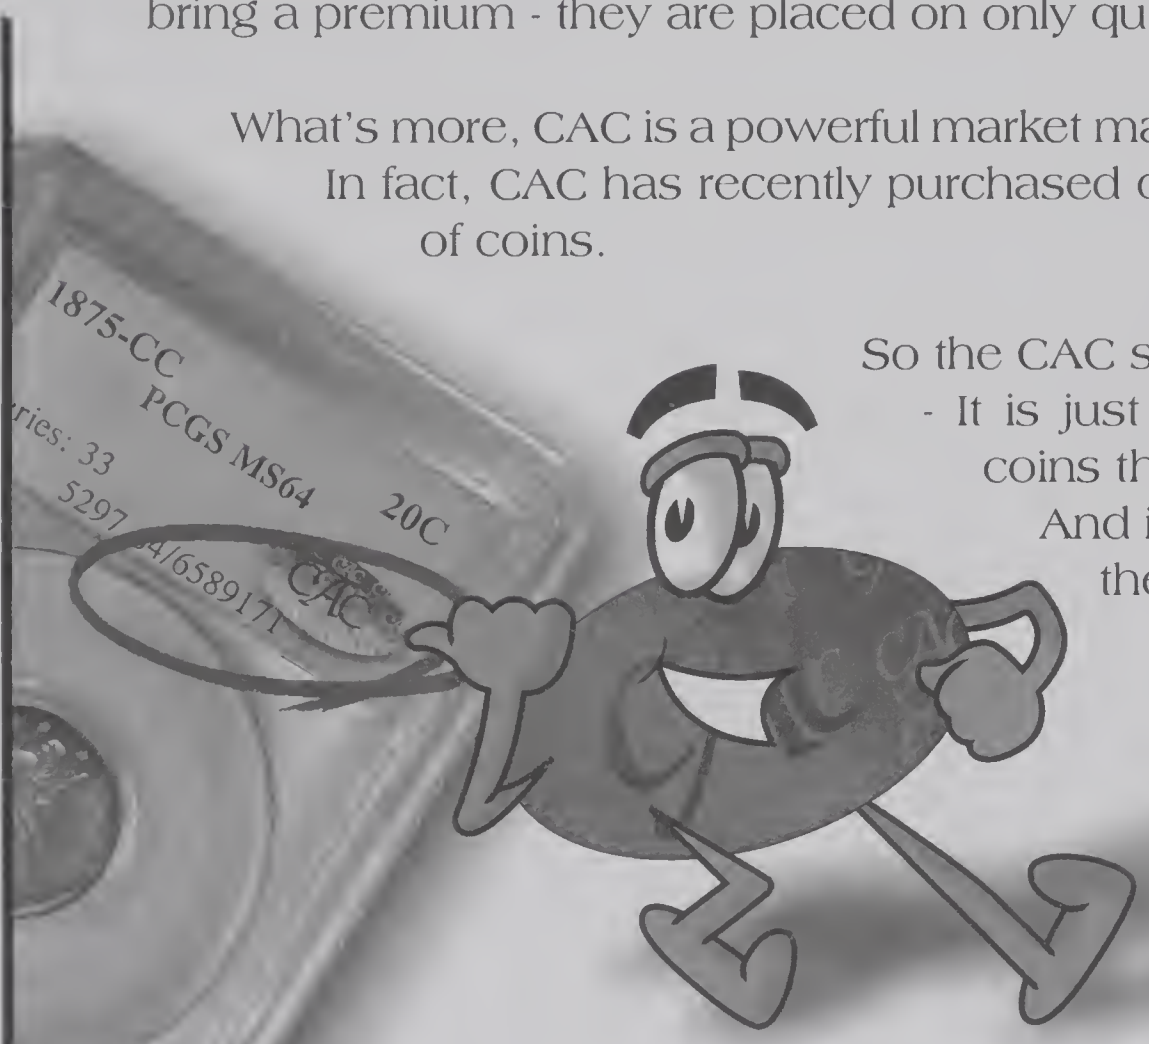
UPDATE!



CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~250,000~~ 350,000 coins with a market value over ~~$1.3~~ $1.7 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$200,000,000~~ $250,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

QE3 BOOSTS METALS & COIN MARKET
MORGANS ROLLING HIGHER

The Market in Depth

The third round of Quantitative Easing by the Fed since 2008, after the financial meltdown and the Great Recession began, was announced last week Thursday. This economic stimulus strategy to reduce long-term unemployment calls for the Fed to purchase $40 billion of mortgage-backed securities each month. As a result of this announcement and in anticipation of it, Gold prices have been rapidly ratcheting higher for several weeks; then surged last Thursday right after the announcement was confirmed. These purchases of mortgage-backed securities will continue indefinitely until the job market measurably improves. Some prominent politicians on the Republican side are calling this move a debasement of our currency. For coin dealers, this all means *opportunity*! Now's the time to get to work to take advantage of this stimulus program and rising trend in precious metal prices. Gold Spot has climbed about $150 per ounce during the past month, from the $1,620 level to about $1,768. Silver has soared even more on a percentage basis during the same one month period. It has been run up from the mid-$28 level to the mid-$34 level. Platinum has gone from $1,400 five weeks ago to nearly $1,700, while the Palladium price has moved higher, from $608 to $690 during the past month. This is an impressive move of more than 20 percent for the former metal and 13 percent for the latter.

Obviously, these higher metal prices are bringing investors back into the physical market, served by coin dealers. Additionally, the markets for other related coin products, like 90 percent Silver coins, bulk Silver Dollars, generic U.S. Gold coins, and foreign Gold coins, are experiencing increased demand. This is just the type of market that may boost premiums over melt values for generic U.S. Gold coins, which have been softening almost to the point of completely vanishing during the past few years as Gold prices have climbed to increasingly record levels.

On the higher end of Gem and trophy coinage, the mainstream media is giving this market segment prominent coverage. Last weekend's *Wall Street Journal*, for example, illustrated large images of a 1907 $20 Saint-Gaudens Ultra High Relief, the famous Brasher Doubloon with the "EB" punch on the breast, and one of the finer 1913 Liberty Nickels as icons that make big money.

Coming up next is the Scotsman Jewelry and Heirloom auction October 4, and the Collectors' auction, October 5, both in conjunction with the October Silver Dollar and Rare Coin Exposition. All this action will take place at the Saint Charles Convention Center. See several of the many highlights herein. Then it's the ANA National Money Show in Dallas, October 18-20 with an auction by Heritage.

This Week's Market

MERCURY DIMES: Although the Mercs haven't made it big in the headlines lately, key and semi-key issues, as well as strictly graded Full-Band Gem specimens of the better-dates, have been capable of realizing at least current Bid offers so as to maintain relative stability within this segment.

WALKING LIBERTY HALVES: Late-date Walkers in Gem can still be quite susceptible to the detriments of discount trading and weak auction performance, as 1946-S issues in MS65 demonstrated this week with their Bid falling by 14%.

DOLLARS: Virtually all is on the upside for Dollars this week, as every Morgan in VG is Bidding over $30 again while several issues in the higher grades, most of which are generic, are sustaining a moderate ascent. As 1883-O cartwheels in MS65 jumped up nicely by $30, those well esteemed 1890-CC Dollars in MS64 are bouncing back with a Bid stronger by 8%, but 1892-S Dollars in AU were the only issues to roll back, albeit not all that considerably. Generic Circulated Peace Dollars aren't all that far behind their Morgan peers. Choice examples got a bit of a lift this week as well.

PROOF SETS AND MINT SETS: Dealers are on a hunt to find nearly all Prestige Proof Sets from 1983 thru 1997 to fill holes in their inventory and will pay more to do so. Mint Sets are mostly stable with no negative signs. 1976 three-piece Mint Sets are up one dollar on the heels of a higher Spot.

COMMEMORATIVES: Silver Commems would have had another week of harmless conclusions were it not for those Spanish Trail issues in Gem that have been getting particularly sluggish due to this market's harsh dictates of supply and demand with respect to this segment. These Halves in MS65 merely lost $10, but the $125 decline sustained by their peers in MS66 this week constitutes an 18% drop this year for these often noted issues. The market bore no consequences for any Gold Commems.

TYPE: Bids for all Coronet Large Cents in MS63 are higher, and the Copper craze spilled over to add more gleam to some 19th century issues that included 1859 Indian Head Cents in MS60, their comparably graded Bronze peers in MS65BN and in a variety of other Mint State grades, mostly in Red-Brown. Two Cent Pieces in MS64RB and MS65RB advanced quite significantly as well. Type I Three Cent Silver Pieces in MS64 more than recovered their loss from May with a $20 gain, while 1853-54 Liberty Seated Quarters With Arrows in MS63 moved up by 15%.

GOLD: Gold Spot has been advancing at a steady pace for five straight weeks, gaining 10% during this recent run up, but it may take quite a bit more upward motion to convince those staying on the sidelines that the yellow metal is poised to set a new record price. Nevertheless, all generic $20 Libs in VF20 thru MS62 and $20 Saints in all grades but MS67 have risen by at least $200 since mid-August.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 39 September 28, 2012 *. . .a Friday morning report on the Coin Market*

QUALITY MATERIAL IN DEMAND
PROBLEM COINS A PROBLEM

The Market in Depth

While the upward trend in bullion prices has slowed, or even reversed a little during the past week, prices are holding firm at significantly higher levels than where they were during mid-August. This trend has stimulated business in various segments of the market and has created increased traffic from bullion buyers to scrap sellers in coin shops across the country. Gold started off this week at $1,764 and Silver Spot was hovering around the $34 mark, up from $1,650 and $31 a year ago. Platinum, however, has backed off last week's price of more than $1,700 to $1,632 and Palladium has fallen back, as well, to $640 after trading near $700.

This coin market continues to experience a wide gap between active segments of the market – namely bullion related coins at one end and high-end pieces at the other, and this gap is widening. There is an excess of many common coins in dealer inventories, over and above collector demand. One reason is the continued restriction in the economy affecting so-called middle-class incomes. Coin shops have been overloaded buying common coins from the public the past couple of years, and this material is piling up. For the most part, these are not investor coins; they're collector coins, such as Circulated key and better dates, and generic examples in low to medium Mint State grades. This material includes 1932-D and S Washington Quarters, MS60 to MS63 CC Morgan Dollars, common date Indian Cents and Buffalo Nickels, as well as many modern Proof and Mint Sets. Dealers are paying increasingly larger discounts for these kinds of coins and passing them up the wholesale stream to bulk buyers. Many off-quality coins also fall into the discounted category – particularly those that have been overly dipped, have dark or unappealing toning, or exhibit other blemishes like spots, unsightly contact marks in prominent places, artificial toning, or overly weak strikes. Demand is just not there these days for problem coins and those that are below average for the grade. However, top notch examples with great, natural toning are selling for solid prices. On the other hand, while very scarce high-end coins are trading for premiums, those that exhibit imperfections are taking a hit on price and are a hard sell in today's market. Even scarce to rare date coins have a wide range of prices tendered for them with buyers often paying over Ask for those low pop, premium quality examples that are at the top end for their assigned grade, while those that are problematic, such as overdipped or washed out are often difficult sellers at any level. This scenario is easily seen for coins with wide spreads between grades.

A handful of dealers are in Las Vegas at the Venetian Hotel attending the PCGS Members Only show which ends September 29. Scotsman will hold an auction at the Silver Dollar Expo, beginning Thursday, October 4 in St. Charles, MO. Legend-Morphy will have a sale October 10 in Denver, Pennsylvania. Then it's the big ANA show with an auction by Heritage, in Dallas October 18-21.

This Week's Market

CENTS THRU HALVES: Bullion sensitive issues are a tad higher since our last report by way of a stronger Silver Spot. Select Proof rolls are lower from continued discounting. The majority of Unc Kennedy rolls are needed in quantity, and dealers are paying Bid or more.

MERCURY DIMES: Top pop Mercs, such as the 1939-D in PCGS MS69FB due to be auctioned off by Legend-Morphy early next month, don't appear frequently enough to really predict a precise outcome, but the prospects seem very promising for this monster coin.

WALKING LIBERTY HALVES: A dozen late-date Gem Walkers are in somewhat of a tailspin, resulting in rather considerable declines for some. 1937-S issues dropped the most in terms of an absolute amount of $65, but the rate of descent was most severe for 1944-S issues, which lost 14%.

DOLLARS: Most generic Morgan Dollars in MS63 remain forward-bound, albeit to a gradual degree, while a few circulated key-date cartwheels had to adjust to what may be an over-supply situation. Problem free Morgans available at lower Asking prices include the 1893-CC in VF, the 1893-S in VG, and 1895-S Dollars in VG thru VF. Common date Peace Dollars in MS64 continue to move higher for a second straight week, while their peers in MS66 look a bit jittery and have dropped by $25.

PROOF SETS AND MINT SETS: A few Proof Sets are higher this week, including the 1976 3-Piece at $25, as well as 2002 and 2008 Silver Proof Sets at $47 and $53, respectively. Mint Sets are quiet overall, though dealers are paying at or near Bid for the majority.

COMMEMORATIVES: Alabama Halves in MS66 have been among the least volatile of the Silver Commems this year, and are back up to an even $2,500 Bid. This Commem has a combined pop of 163 in MS66, 23 of which have been stickered by CAC. Downward pressure bore down particularly hard on comparably graded New Rochelle Halves, and Wisconsin issues slid in a successive range of Mint State grades. Compared to Silver, declines among Gold issues were fewer and more moderate.

TYPE: Mint State Type material had a far better week than the Proof Type segment. A minor drop for Liberty Nickels With Cents in MS65 was quite insignificant compared to that for those often revered Liberty Seated Dimes with Arrows in PR65 which, shockingly, got scalded at auction this week and dropped 18% as a consequence. Discontent at the auction block involved Shield Nickels With Rays and Liberty Seated Quarters With Motto as well, both in PR64, which fell by $25 and $50, respectively.

GOLD: Gold Spot has remained rather sedentary this week, at $1,764 per ounce, but the overall Gold Type segment is sustaining positive momentum likely due to new monetary uncertainties associated with recent Fed QE3 policies and continuing interest rate suppression. Circulated $20 Libs and Saints are all trading at just over $1,800 Bid, representing a premium of at least $100 over melt.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen** The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of [illegible] to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

MARKET FIRMS ON ROBUST PRECIOUS METALS
DEMAND FOR QUALITY CREATES DIVISION

The Market in Depth

Coin collecting is generally getting more serious now that summer activities are winding down and both dealers and collectors are beginning once again to be more involved with their numismatic endeavors. This year, the coin market has the added bonus of precious metal prices rising and attracting the attention of both new and seasoned collectors as well as investors. However, the coin market continues to be stratified between active and inactive segments. Right now, generic Gold coins are one of the most active areas of the market in terms of demand. This is reflected in rising premiums over melt values. In January, premiums were the lowest they've been in recent years. Some generic Gold coins were selling at less than 5 percent over their melt values. Those low premiums grew to between 5 and 10 percent by last spring to more than 10 percent at this time for Uncirculated examples. Of course many premiums for the more popular series, like $5 and $10 Indians, are well above that level. Higher grade and premium quality Gold is also selling well, but is difficult to find – especially when stickered by CAC or Plus graded. CAC approved examples are by far the most asked for, and the public is becoming increasingly aware of the CAC brand.

The Numismatic Crime Information Center is urging dealers to use extreme caution and screen potential customers carefully, particularly for bullion purchases. As precious metals prices have climbed higher lately, criminals have been increasingly targeting coin and bullion dealers. They are contacting dealers by email often written in broken English and are using bogus cashier's checks, and requesting that purchases be sent by express mail. Dealer's who've received phone calls have indicated the subjects are of foreign nationality. These are all red flags, according to the NCIC. One dealer is reportedly out $15,000 after receiving a phony cashier's check. At least two robbers armed with pickaxes stole an estimated $2 million worth of precious gems and Gold at a mining museum in the Sierra Nevada foothills last Friday.

As this week's precious metal trading began here in the U.S. on Monday morning, Gold wavered slightly above and below the $1,770 benchmark and then quickly shot up for a few moments to reach the $1,790 level before closing at $1,781, a high not seen since February. Underlying strength is definitely present in the precious metals market. In comparison, a similar strength is being felt at the top end of the rare coin market. Many prices for solid to premium quality rare coins are steadily increasing while those that fall into the low end of a particular grade are soft. Problem coins or those with aesthetic issues, such as unoriginal surfaces are even worse off. Some dealers who specialize in the top segment of the coin market are expecting a widening divide in price levels between these two ends of the grading spectrum – rising prices for stickered coins and falling prices for those without.

This Week's Market

MERCURY DIMES: A few interesting lots will soon cross the auction block in Dallas, including a not very often seen, lightly circulated 1916-D graded AU55FB, a 1942/1-D in MS64FB, and a 1945 issue in MS65FB, all certified by PCGS.

WALKING LIBERTY HALVES: 1946 Walkers were among the few late-date issues in Gem to avert the downside pressure resulting from last week's shake-down, but these issues now too have slid lower by $10, while their D-Mint peers in MS64 also settled lower at an even $60.

DOLLARS: Rising Bids persist for most Morgan and Peace Dollars in all lower circulated grades. Generics in MS64 edged to their highest level of the year to $73 Bid, though quite a distance from their May 2011 peak of $111. Among those Dollars seeing greater demand are 1885-CC and 1900-O/CC in MS63, as well as 1896-S in MS64. Paradoxically, 1928 Peace Dollars in MS63 can't seem to maintain their appeal in sync with their key-date status and have dropped 7%, while 1934-S issues in Gem recovered an appreciable $115. A Sacagawea/Washington Mule graded NGC MS67 is being shopped around for $155K.

PROOF SETS AND MINT SETS: Several Silver Proof Sets are making a run to higher ground as Silver Spot continues to escalate. 2010 Clad 14-piece and Quarter Proof Sets are at $44 and $17. 1996 Mint Sets are Bid higher this week, now at $12.

COMMEMORATIVES: Bay Bridge and Iowa Halves, the former in MS65 and the latter in MS66, each recovered a bit of lost ground as the remainder of the segment maintained firmness with neither any gains nor losses. Likewise, all Gold Commems persevered through a week of inconsequential trading. The US Mint is having trouble manufacturing First Spouse Gold for 2012, and has delayed their release. Multiple dealers are looking for 1995-W ASEs graded PR70 UCam by NGC and are now willing to pay $13,250 for spot-free examples.

TYPE: The entire Type segment is devoid of any movers or shakers this week, but the upcoming major auction events taking place before the end of the month should bode well for this segment as a diverse variety of material is being made available. Two extremely scarce items that should fascinate early Copper enthusiasts during this month's Dallas auction are an original Proof striking of an 1843 Braided Hair Half Cent, graded PCGS PR64BN, and an astounding 1795 Liberty Cap Cent with Lettered Edge, graded NGC MS65RB.

GOLD: With the prospect that Gold Spot may advance to or above the $1,800 per ounce level again, there has been stimulating interest in not only the yellow metal itself but in various denominations of generic Gold Type. Double Eagles in VF20, for example, are up by $40 since last week, even though Spot increased by less than $20 since then. A $200 to $500 increase in Bid for Type II Gold Dollars in MS63 thru MS65 may not be that significant, but may serve as notice that Bidders are starting to gravitate towards scarcer material as well.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. GOLD DEMAND HEATS UP
ANA FALL SHOW ON HORIZON

The Market in Depth

Dealers have been enjoying a welcome breath of fresh air, so to speak, during recent weeks with increased demand that's been stimulated largely by higher bullion prices. Not only is strictly bullion material being asked for, generic U.S. Gold coins are continuing to be purchased by retail buyers which has also increased wholesale trading in this segment of the market. Type sets and bulk deals of $20 Libs and Saints are especially sought by consumers, as is the popular complete date and mintmark set of $2½ Indians, because it is short and fairly easy to complete. Some Gold Type is downright scarce and difficult to find, such as $5 and $10 Indians in medium to higher Mint State grades. Plus graded and CAC stickered Gold coins are harder to find and are being sucked out of dealer inventories like they've been discovered by a giant vacuum cleaner scouring the market. Even with all this upbeat activity, a great number of dealers fail to comprehend what CAC and Plus grading is all about, let alone their customers' understanding of what to make of it. The long-term risk to this blindness is that in a few more years un-stickered and un-plused coins may be very difficult to sell back into the market just like coins in "third-tier" slabs have been meeting with buyer resistance for many years. At the very least, those un-stickered and un-plused coins will obviously be selling for steep discounts, and their grades may be questioned – the game is slowing down for coins that have had their grades maxed out.

Scotsman's Silver Dollar Expo and auction in Saint Charles, MO has wrapped up, and we have included several of the many highlights herein. Perhaps it comes as no surprise that Gold was a particularly popular product at the show. Total prices realized for the October 5 sale was $1.17 million. The highest priced lot was an NGC MS65 1883-S Morgan Dollar that sold for $19,500.

Scotsman			Price Realized
1859	Indian Cent, CAC	PCGS MS64	$1,323
1865	Three Cent Nickel	NGC PR65	$4,600
1924-S	Buffalo Nickel	NGC MS64	$4,140
1887-S	Lib Seated Dime, CAC	NGC MS66	$2,070
1875-S	Twenty Cent Piece, PL	NGC MS65	$7,188
1876	Liberty Seated Quarter	PCGS MS66	$3,335
1935-D	Washington Quarter	PCGS MS65	$1,035
1933-S	Walking Liberty Half	NGC MS62	$1,006
1880	Morgan Dollar, CAC	PCGS MS65	$1,035
1903	Jefferson Gold Dollar	PCGS MS67	$5,175
1904	$2½ Liberty	NGC MS67	$3,795

Dealers are preparing for the Fall National Money Show in Dallas, October 18 to 20. Heritage will be conducting the official ANA sale. While wholesale business is expected to dominate dealer trading at the show, public attendance should be given a boost by the recent higher bullion prices. Excitement is already brewing as the bourse of over 500 dealers is sold out, and attendees have quite a bit to look forward to. Displays including the only complete set of $3 Gold Pieces from the Harry W. Bass Jr. collection will be available for the first time for public viewing.

This Week's Market

CENTS THRU HALVES: The roll market remains in a bit of a slump, especially without the added benefit of a higher Silver Spot. Select State Quarters are still heading south.

MERCURY DIMES: An eye-catching 1916 Merc, graded NGC MS68, took in a respectable $3,220 during Scotsman's auction last week in St. Louis. Bids for all Mercs have been inert for a fourth straight week, but there's time for some reaction to occur well before the end of this year as some other soon to be disclosed major auction results may prove this segment as remaining an important determinant of market activity.

WALKING LIBERTY HALVES: Walker enthusiasts should make note that those Short Set key date 1941-S issues in Gem have now declined over 20% in the past 12 months. Gem 1944-S Walkers regained $10 this week and are now Bid $250. Bids for Short Sets in MS65 total $3,340.

DOLLARS: Generic Morgan Dollars in MS64 are still high on the inventory want lists of dealers who apparently are stocking up in anticipation of greater demand for these cartwheels. However, 1880-CC (Rev. of '78) issues in MS66 and those pristine 1882-CC Dollars in MS67 both missed their current Bid targets and are now lower by a respective 10% and 6%. The popular 1885-CC Morgans in Gem, on the other hand, are back up to $900 and those much desired key-date 1893-S Dollars in XF managed to gain enough additional appeal to raise their Bid by $1,000. Peace Dollars all refrained from making any advances or declines.

PROOF SETS AND MINT SETS: This area continues to be active, even with Spot Silver falling below $34 an ounce after spiking over $35, though no positive or negative signs are present. Dealers remain hot for 2008 and 2010 Silver and Clad Proof Sets and are willing to pay Bid for virtually any quantity.

COMMEMORATIVES: Inactivity among Classic Commemoratives allows for some reflection on this segment's performance so far this year. Despite pervasive market volatility and numerous setbacks, Lafayette Dollars, Alabama, Grant with Star, Missouri, and Monroe Doctrine Halves have proven themselves as among the most resilient across the grade spectrum along with several PDS Sets with, perhaps, Rhode Island Sets in MS65 and MS66 being exceptions. And owners of 1905 Lewis & Clark Gold Dollars or $50 Pan-Pac slugs in any grade have good reason to be happy as well.

TYPE: In affirmation of early Copper's most aggressive role within this segment, Liberty Cap Large Cents in MS63BN are the latest movers on the upside with a $1,000 advance. These issues, including all sub-types dated from 1793 to 1796, have a combined pop of only 68 in this grade. Their Coronet variety peers in MS64RB added a tad more for a gain this year of 13%.

GOLD: Gold Spot drifted moderately lower, but that seemingly insignificant movement was enough to disrupt as much as six consecutive weeks of advances for much of this segment's generic material. Nonetheless, $3 Indian Princesses in MS63 completely regained this year's losses while their peers in MS64 continue to vacillate, albeit in an upwardly direction this week.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~250,000~~ 350,000 coins with a market value over ~~$1.3~~ $1.7 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$200,000,000~~ $250,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

MAJOR ANA ACTION IN DALLAS THIS WEEK
PROOF 1911 $20 SAINT HAMMERS FOR $144K

The Market in Depth

As numismatists, professionals and hobbyists alike, migrate to Dallas for the ANA's Fall National Money Show, the week begins with a lackluster showing in precious metal prices, which usually dampens the mood of any major show. But Gold, Silver and Platinum are still significantly higher than they were back in August during the ANA's World's Fair of Money in Philadelphia. As the official auctioneer of the ANA National Money Show, Heritage will hold a sale October 17-23, with the floor session ending on Friday, October 19. A free seminar given by the Numismatic Crime Information Center, in conjunction with the ANA for law enforcement personnel, is being held October 18, and over fifty local, state and federal officers have registered to learn about the complex challenges often encountered with numismatic crimes.

In spite of demand being hot and heavy for tip-top, tightly graded rare coins, the general coin market is more sluggish from an economic influence and, importantly, a general tightening of coin grading standards - namely the influences of stickering by CAC and Plus grading. Coming to a halt are the days of maxed out grading and doctoring to try and get the third-party grading services to push coin grades to the limit. This evolution has resulted in that *sinking feeling* many collectors, including dealers, are experiencing from coins that don't have a Plus sign or a green sticker. Experienced coin buyers now have to put some thought into paying full market prices for coins that don't have these attributes. Are some buyers really getting back to purchasing coins based on their looks, and not just "plastic"? On the other hand, some shrewd deals can be made by dealers and budget conscious collector/investors in this kind of market climate.

After a consolidation of the major auction houses occurred during the past several years, smaller firms are getting more notice, like Scotsman, for which auction results were covered last week, and Legend-Morphy, which held a sale last Wednesday, October 10. Legend-Morphy sold 155 out of the 226 lots offered for a total of $793K. This auction firm is priding itself on transparency by disclosing which coins its affiliate company, Legend Numismatics, Inc., owns, something few if any other auction companies reveal. The highest priced lot was a 1911 $20 Saint graded PR66+ by PCGS and stickered by CAC which sold for $143,750. Other top lots were a 49.8 troy ounce Gold nugget that sold for $86,250; a 1783 Chalmers 3-Pence piece graded AU53+ by PCGS, CAC at $37,375; an 1863 Proof Set ranging in grade from PR64 to PR66 by PCGS brought $32,200; and an 1862 $3 PCGS/CAC PR63 at $23,000.

The Great CAC Event is being held on eBay through October 21, the largest offering of CAC approved coins and the seventh coin promotion this year. eBay announced the APMEX Bullion Center where precious metal prices will be updated once every ten minutes in addition to providing a bullion educational feature.

This Week's Market

MERCURY DIMES: Even though they can be among the favorite of early-dates, 1917-S issues in MS65FB have been known to disappoint at auction. These issues lost $150 since January of 2011, but Bids for 1919, 1921, and 1921-D Mercs in MS63 and MS64 rose moderately.

WALKING LIBERTY HALVES: As many as eight commoners in MS64 are helping this segment to reverse with marginal gains, but the possibility for a considerable turn-around is unlikely if Gem quality material continues to sag as it has been recently. Such was the case for 1942-S issues this week, which posted a 10% decline.

DOLLARS: Generic Morgans in MS64 have maintained a gradual but steady rise over the past five weeks and have each now gained over 15% during that stretch of time. 1881-O cartwheels in MS64DMPL are sinking lower, however, and those often sought-after 1890 Dollars in Gem slipped down by $100 as a few key-dates in Circulated grades incurred minor reductions while demand for those 1893-S issues in VG seems too great to keep them below $2,000. Generic Peace Dollars in MS64 joined in with their comparably graded Morgan peers for a $4 ascent to even out at $60.

PROOF SETS AND MINT SETS: 2010 Clad 14-piece and Quarter Proof Sets are on the move with dealers looking for quantities. 1996 Mint Sets are Bidding higher this week now at $12.50 and dealers will pay $7.50 just for the "W" Dime in the cello pack, 60% of what the entire set Bids.

COMMEMORATIVES: Pan-Pac Halves in MS65, which have been sustaining themselves much better this year compared to last, are looking somewhat challenged by way of a $25 drop. Yorks in MS65 and MS66 each regained $15, but both issues have a way to go before returning to their January Bid levels of $235 and $288, respectively. Pan-Pac and 1916 McKinley Gold Dollars in MS63 each moved slightly lower along with the latter in MS60.

TYPE: A multitude of material in both Circulated and Mint State has been Bid up in a wave of higher buy offers from market-makers anxious to augment their inventories. Many early Coppers added yet more to their recent gains, particularly Classic Head Half Cents, Coronet Head, and Braided Hair Large Cents in Mint State Brown and Red/Brown. Type I Three Cent Silver Pieces in any Mint State grade are all needed in greater quantities, and their Type III peers in Choice and Gem are also being lured into the market with significantly higher offers.

GOLD: Gold Spot's descent back down to below the $1,750 per ounce level was an impediment to neither Type 1 Gold Dollars in MS65 nor to their Type 2 peers in Choice and Gem, as those scarce MS65 specimens are up by nearly 12% so far this year, and $3 Indian Princesses in MS63 and MS64 are undauntedly plowing ahead for a second week of gains. Declines in reaction to the yellow metal's retraction are most predominant among generic $20 Type III Libs and Saints.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BUSY DALLAS ANA — $23 MILLION REALIZED
GAPS IN QUALITY IDENTIFIED

The Market in Depth

Last week's ANA Fall National Money Show in Dallas was successful for the most dealers who attended. The bourse was somewhat smaller than many major national shows, especially the ANA World's Fair of Money held each summer. Next up for the ANA, is the spring National Money Show to be held in New Orleans, May 9-11. Even though the retail crowd may have been thin at the show's outset, wholesale business carried the show for many dealers. This has been the trend throughout this recessionary climate of the past few years, and at least for the time being, the ANA is winding down these regional fall shows. Even so, the ANA put together some really great exhibits with major rarities for this convention, drawing visitors, including dealers, who rarely take the time to look at the displays.

Strength continues on the high end of the coin market. A few more dealers are beginning to realize that coins with maxed out grades on their holders are facing resistance in the market. Those coins that are conservatively graded are receiving the "wows" and are selling faster, for comparatively higher prices than those that have been cracked out and re-submitted, again and again, until they finally receive pushed-to-the-max grades. Prices are reflecting the two extremes of premium quality and coins that are low end and just make the grade, with the gap widening. Other factors in the price equation are scarcity, availability and popularity. Nice coins that are easy to find on bourse floors or in auctions are being price-shopped, while those problem free pieces that are infrequently encountered are selling for premium prices. Auction prices realized in the Heritage Dallas ANA sale demonstrated this higher demand for premium quality, scarce coins. A total of $23.2 million fell to the gavel with the top lot - a 1792 Disme Copper Pattern graded NGC PR62BN selling for $587,500. Several additional highlights are listed herein.

Precious metal prices have taken a trip south since early October. Gold has fallen from $1,794 on October 4 to $1,708 this week, while at the same time Silver has dropped from $35 an ounce to under $32. Platinum, higher than $1,725 in early October, has declined by $150; while Palladium has tumbled, during the same period by more than $80 from $675.

This Week's Market

CENTS THRU HALVES: A number of select Proof rolls from all denominations are lower. Bullion sensitive issues are also down from a Silver Spot that is 6% lower from two weeks ago. 1960 Small Date Lincolns are needed at Bid.

MERCURY DIMES: After a $25 decline in April, 1930 Mercs in MS65FB shed another $5. At some level these early Depression-era favorites may eventually become more enticing.

WALKING LIBERTY HALVES: 1920-S Walkers are getting tougher to find in any Mint State grade, and Bid has increased $25 in MS60. Late dates in MS63 got a bit feistier, but 1943-S Walkers in Gem appear to be descending closer towards that $200 Bid level with another $10 drop. A near white Gem PCGS short-set is being offered at Bid.

DOLLARS: Generic Morgan Dollars in XF and Gem are still warming up this segment despite an unflattering performance by Silver Spot this week, and early S-Mint generic cartwheels in MS66 and MS67 are moving up a bit too. Better-date Morgans didn't make much fanfare as 1895-S issues in VF were forced $65 lower. Another straight week of moderate gains for generic Peace Dollars in MS64 has these issues up now by nearly 30% since mid-September.

PROOF SETS AND MINT SETS: Proof Sets remain strong with little discounting to report. Mint Sets are just as solid with most dates having visible buyers at or near Bid.

COMMEMORATIVES: Gainers among Silver Commems were mostly within the MS64 grade with Gettysburg issues rising by 8%. Robinson Halves in MS66, which appeared poised all year to break through the $600 level, fell to $550. A beautiful, iridescently toned Elgin Half, graded PCGS MS67+ with CAC approval, took in nearly $3,700, while a 1903 Proof Jefferson Gold Dollar in NGC PR66, one of only 100 struck and four graded as such, fetched just under $20K in the Dallas ANA auction.

TYPE: A large portion of the Type segment maintained its upbeat posture since last week's stellar performance, while Bids for virtually all of the newly elevated material remain in place. A wide variety of early Coppers are still sought in Circ grades, as are Unc Two Cent Pieces in Choice and Gem. Proof Two Cent Pieces in PR63RB thru PR65RB each increased $10 along with those in PR64RD, as did With Motto Liberty Seated and Barber Halves in PR60. Draped Bust Small Eagle Dollars in Good jumped up by 25% to Bid on parity with their comparably graded Flowing Hair peers.

GOLD: Gold Spot's descent back down to just above the $1,700 per ounce level caused greater pull-back activity among Mint State Gold Type in Choice and Gem than it did among those of lower, circulated grades. $10 Libs With Motto in MS60 thru MS65 were most susceptible to a sell-off effect as Bids for these issues are all down rather significantly, but dealers are still stocking up on common $20 Libs in VF20 thru MS62 and $20 Saints in all grades other than MS65.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The following prices are for typical rolls of the dates involved. In the Lincoln series spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series [illegible] to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre 194[illegible] Wa[illegible] together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker [illegible]

CAC Jumps to New Heights!

Five short years ago, CAC was established by leading members in the numismatic industry who recognized the need for a higher level of grading. While still in its youth, CAC has revolutionized the market and continues to experience impressive growth.

In short order, CAC's green sticker is trusted by dealers and collectors, signifying the mark of quality within a grade. To date, CAC has examined over 400,000 coins valued at $1.8 Billion, awarding the green sticker only if a coin meets CAC's stringent standards. What's more, CAC provides liquidity to the market. Since its inception, CAC has purchased coins in excess of $275,000,000.

Coins honored with the CAC sticker make it easy to identify those that are truly solid for the grade. Want confidence? Look for the green sticker.

STRATIFICATION BECOMING DISTINCT
BUYERS MORE EDUCATED IN PURCHASING

The Market in Depth

As a result of Hurricane Sandy, Wall Street closed for the second consecutive day. This is the first time since the blizzard of 1888 that the financial markets have closed for two days straight due to weather. Several coin dealers are among the eight million without power resulting in some shop closures. Even with this trouble on the east coast, generally, the rare coin market has settled back into a normal mode after the major ANA Fall National Money Show in Dallas the week before last. While there are many regional and local shows taking place across the country every week, the next major national show is the sold-out Baltimore Expo November 15-18, with an auction by Stack's Bowers. In today's normal course of business, the coin market's stratification is becoming more distinct. Some areas of the market are experiencing vibrant trading, like high-end coins, but other areas of the market are very slow, especially on the retail side. Today, the younger generation has been consumed with computer based activities, and their parents are spending virtually all their time and money on the bare necessities rather than numismatics. Common coins are consequently piling up in dealers' inventories and are getting cheaper. This trend, and the recession, have also taken their toll on modern Mint products that are overwhelming some dealers' inventories. Sales of some supplies, including coin albums, have fallen off because the public just isn't collecting like they were when the Fifty State Quarter program began. Collectors who have bought modern Mint products thinking they were investing in coins, are getting a rude surprise when they try to sell, unless they've purchased Gold or Platinum in years past. There are only a few scarce modern issues that have otherwise grown in value.

On the other hand, established "lifestyle" collectors are still very much active in Registry Set building, and in advanced acquisitions, such as by die variety. Strength is seen in these types of areas and progresses right on up to the high-grade, high-value rare coins. Investor/collectors are a major driving force in this mid to high end segment of the coin market and buyers in this area are reasonably educated about what they're doing. Education is also driving much of the purchasing of vintage Gold and common Silver Dollars. However, for the most part, much of this material is trading in bulk directly related to the precious metal content, with grading not a primary factor. Therefore, premiums over melt values are continuing to remain low for these types of coins. Buying activity in this market segment also softens when Gold and Silver prices remain steady, but picks up when prices move substantially in one direction or the other. Election day is next week, and could be giving market participants a wait and see attitude regarding metals, which have been subdued with light trading in a tight range lately. Gold has been in the $1,700-$1,710 area for the last week, Silver in the $31.60-$32 region.

This Week's Market

MERCURY DIMES: The quantity of fresh Mercury Dime material featured during the recent major auction venues has been relatively sparse, but a few scarce Mercs will be up for grabs during the Stack's Bowers Baltimore event this month, including a 1945 issue in NGC MS65FB, a tough coin to find in this grade with a combined pop of just 42 with only 23 finer.

WALKING LIBERTY HALVES: There was some slight upward movement within Walkers, which included a slight increase for 1940 issues in MS64, but that was more than offset by a $15 slump for their peers in MS65. 1944 examples in MS63 and 1947-D Halves in MS64 moved a bit higher also, but Bidders are not delving with as much confidence into this segment as they are in others.

DOLLARS: Most generic Morgan Dollars in VG thru VF, as well as a few better-dates in these grades, aren't letting a stagnant Silver Spot slow them down and, although their gains were minimal, the segment as a whole is holding up considerably well. The king of the series 1893-S in VG shot up by $500 this week, while 1895-S key issues in VF thru AU are resuming in their recovery. 1900, 1900-O, and 1902-O Dollars in Gem fell short of maintaining their current Bid support, however, as these all dropped down to $150. Generic Peace Dollars in MS64 have now gained 14% during three straight weeks of steady advances.

PROOF SETS AND MINT SETS: 2010-S 14-Piece Clad Proof Sets and Clad Quarter Sets are still making noise with higher Bids this week at $51 and $20. Mint Sets aren't showing any type of setbacks with dealers still looking to pay at or near Bid for the majority.

COMMEMORATIVES: Silver Commems are mostly active by way of offers at current Bid with a few issues gaining in strength this week, including 1893 Columbians in MS63 and MS64, Hawaiian Halves in MS65 with a $100 recovery, and York issues in MS65 and MS66. On the downside were Delaware, Lexington, New Rochelle, and Norfolk Halves, all in MS66. Weakness continues to prevail amongst Gold Commems as 1916 McKinley Dollars in MS60 and MS64 have been depressed enough so as to result in a 17% drop this year for those of the latter grade.

TYPE: Type remains in high gear with numerous advances across-the-board for both Circulated and Mint State material. Proof Type is also strong with increases in place for Three Cent Silver specimens in PR63 thru PR65. That very narrow $50 spread between PR64 and PR65 1936-37 Buffalo Nickels got wider by $100, as a decline of such amount was incurred by examples in the former grade.

GOLD: Bids for most generic Gold Type material remained unchanged and in sync with a Gold Spot market that barely moved this week. Despite the doldrums, $3 Indian Princesses in MS63 and MS65 are still rebounding and Bidders aren't shying away from taking on more Type 3 $20 Libs in MS62 and MS63 along with $20 Saints in MS63 thru MS65.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

STORM & ELECTION IMPACT MARKET
PRECIOUS METALS VOLATILE

The Market in Depth

Last week's major storm caused power outages, floods, fires and other serious damage in several states in the northeast. New York and New Jersey were badly affected in many areas by this disaster of historic proportions. Multiple numismatic entities were closed and left without power, including the ANS, Stack's Bowers and CAC. Many numismatists in the region had to protect and recover their libraries, documents and collections. Buffeted by high winds, a dangling crane in mid-town Manhattan on 57th Street, not far from Stack's Bowers, caused the evacuation of the immediate area. As the official auctioneer of the Coin Expo in Baltimore next week, lot viewing at its New York offices was put on hold until the reopening of the offices this week. The good news is that the Baltimore area was not affected, and a routine coin expo and auction are expected November 15-18. Baltimore's Coin Expo, conducted three times per year, has become one of the country's most popular coin show venues. Only the major summer ANA convention and the FUN show now supersede the Baltimore event. It is truly a national show, with seasoned collectors and dealers coming from all parts of the country, including the west coast. This is in contrast to a few west coast shows which have experienced declining dealer attendance from the eastern part of the country. Stack's Bowers is expected to be back up and running and should be able to conduct this auction without skipping a beat after the storm interruption. By the time numismatists begin traveling to the Baltimore show and auction, the country may have a new president, which is being decided at press time for this issue. Many people are calling this election one of the most important in history, mainly because of the expected impact the administration will have on the economy.

The current stimulus to reduce unemployment has propelled precious metals significantly higher, but over the past month, their prices have softened considerably. During the past week Gold has fallen well below the $1,700 level into the low $1,670s. The yellow metal's $40 dive on November 2 represents the seventh largest single day drop since late December of 2011. This roller coaster is now on a major uptick during election day, as Spot is now at $1,714 per ounce. Silver plummeted from nearly $35 to just above $30, but it too has jumped, up nearly $1 today, reaching $32. Platinum fell from more than $1,700 an ounce to around the $1,540 level, and bounced back to $1,558. Palladium lost approximately 10 percent of its market value by falling from the high $600s to below $600, but recovered Tuesday to reach $620. The trend line for all four precious metals has been in a steady decline since early October until election day, when significant increases took place across-the-board.

PCGS has certified the unique pattern 1814 Platinum Capped Bust Half Dollar and given it a new reference number, Judd-44a. This coin has 33 P punch marks on its obverse surface and the word "Platina" hand engraved into the reverse in cursive.

This Week's Market

CENTS THRU HALVES: State, Territory and National Park Quarters are somewhat active for select issues, though strong demand remains for the key issue 2009 Philadelphia Virgin Islands at $30 a roll. Dealers are paying $2 each for 2000 Lincoln Cents in Cheerios blister packs.

MERCURY DIMES: The Stack's Bowers Baltimore auction is featuring some real eye candy for Merc enthusiasts, including an iridescently toned 1916-D graded NGC MS66FB★, unique for the star grade with a mere total of nine examples graded higher in MS67FB.

WALKING LIBERTY HALVES: Teletrade auctioned off a 1942-D Walker this past weekend, graded MS68 by NGC with a pedigree to the Nevada Silver Collection, that fetched $4,600. MS65 examples of this date, along with the 1943-D, remain among the most stable of the late-date issues and have hardly been shaken by the frequent volatility rattling this segment.

DOLLARS: This week's trading had little effect on any of the generic Morgan Dollars other than a few DMPL issues. Those often seen 1882-S cartwheels in MS63DMPL finally reawakened with a 46% hike and no longer seem so underappreciated. Two scarce CC-Mint issues in MS63 also opted for adding some spunk to this segment with $100 Bid increases for 1879-CC and 1893-CC Dollars, the latter issues having so far gained $650 this year. Generic Peace Dollars in MS64 maintained their upward stride with another round of increases, and those in MS66 each regained a bit of ground while 1921 and 1935-S Dollars in Gem added moderately to their recoveries as well.

PROOF SETS AND MINT SETS: Dealers are looking to buy 2006-S 10-Piece and 2007-S 14-Piece Clad Proof Sets at $9 and $12 to restock their shelves. Both the 2007 and 2008 American Legacy Proof Sets have taken a hit, falling to $95 Bid. Several Mint Sets are showing minus signs though only a few sellers are seen at these levels.

COMMEMORATIVES: Plus signs are still sorely needed for the Classic Commems segment and, while the few appearing this week among the Silver Halves may not denote any dramatic rise, they nonetheless are always encouraging to see. Oregon Type, as well as their 1926, 1926-S, and 1936 peers, all in the MS64 column, each checked out this week with a $5 gain, while Gold Commems all remained steady and calm.

TYPE: A lot of Circulated Type material is still getting attention with positive reaction, and while last week's activity within this segment concentrated itself amongst the early Coppers up to Half Dimes, this week's action shifted to boosting up Bids for many of the early Dimes up through Half Dollar denominated issues. Gains of at least 50% were achieved by Heraldic Eagle Draped Bust Dimes in VF and No Drapery Liberty Seated Quarters also in VF. Liberty Seated Dollars in MS60, both with and without Motto, took the opposite direction along with Trade Dollars in PR64 towards disappointing results.

GOLD: Gold Spot rebounded back up to well above the $1,700 per ounce level at $1,714 after finishing last week with a close at $1,674, and quite a bit of generic Gold Type reacted to the volatility with negative consequences. Type II $1 and $3 Indian Princesses, No Motto $5 and $10 Libs, and Type I and II $20 Libs were all unaffected by the tremors in the Gold Spot market, however.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealers. Dealers assume Bid is negotiable. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified or approved by CAC, ANACS, ICG, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*

BALTIMORE EXPO & AUCTION BEGIN
GOLD TRIGGERS TYPE ADVANCES

The Market in Depth

Financial markets are still reacting to the election results with the Dow Jones Industrial Average initially falling sharply by 313 points to close below 13,000 for the first time since early August. Conversely, Gold reversed its downward spiral on Election Day and continued climbing in price for the rest of the week to close last Friday at $1,730, which was up $48 from the previous Monday close. Today Gold is at $1,724 per ounce, an increase of $10 from our last report. Silver is a bit higher from last week at $32.48, while Platinum settled at $1,586 for a gain of $28. All of this positive movement in the precious metals has carried over into Gold Type with a rash of increases recorded. Many of the advances are outpacing Gold Spot's rise by a ratio of 5:1 this week. Pundits are surmising that these market reactions show that the business and financial worlds lack confidence in Obama's policies and strategies to improve the economy. Furthermore, continued stimulus measures are eroding the Dollar and market watchers believe that we can expect more of the same going forward. While some believe a sluggish economy will persist, many feel Obama's re-election may actually be good for the coin business in that demand for precious metal products should continue to be strong and the impact will spread into the collector coin area. If inflation accelerates as a result of all the stimulus actions, as many experts predict, the rare coin and bullion businesses could be exceedingly strong for the next several years. But the next economic hurdle facing the U.S. economy after the first of the year is the "fiscal cliff." It is a combination of budget cuts and expiration of tax cuts. Politicians are now in the process of squaring off on the matter.

On the east coast, thousands of people are still working out of the disaster that struck them and their businesses with Hurricane Sandy and the subsequent storm that followed. While power remains out for at least 125,000 residents, some businesses still closed, and many are left without homes, coin dealers are getting back to work - some after having been closed for two weeks. This is just in time for many of those dealers to attend the Baltimore Expo this week. Fortunately, Baltimore was spared from the damage caused further up the coast in the New Jersey and New York areas. Stacks Bowers is conducting the auction in Baltimore, after having been closed due to the storm which curtailed lot viewing. Nevertheless, the event is expected to carry on as normal. Several dealers are already in Baltimore conducting business privately in hotel rooms and the like, ahead of the show's opening. Actually, many dealers are expecting a strong show and auction as the coin market carries on with a deficit of choice and gem rare coins, as compared to demand. Rare coins that are problem free and all-there for the assigned grade are receiving the lion's share of attention while those pieces that are exceptionally attractive and above average for the grade can almost expect runaway prices at auction and on the bourse.

This Week's Market

MERCURY DIMES: 1939-D Mercs in MS65FB had some slight retention problems, dipping $2. Despite the appearance of inactivity in this segment, retail auction results reveal a strong show of support for strictly graded examples. Such was the case for a 1926-D issue in MS65FB which took in a respectable $1,552, and a 1945-D in NGC MS67FB+ selling for $276 during this past weekend s Teletrade session.

WALKING LIBERTY HALVES: A popular early-date Walker, the 1920-D in MS64, got a $25 lift, but trading activity did nothing more to stimulate any of the other Walkers this week. Gem short-sets that are mostly white continue to be offered for mid Bid / Ask levels.

DOLLARS: Numerous generic and some better-date Morgan Dollars in VG/Fine reacted commensurately with Silver Spot re-positioning itself to its level of four weeks prior, even though the upward movement was minimal. Much of this positive energy spilled over into the MS60 and MS63 columns for many of these issues. A few scarce-date CC mintmarked Dollars in Circulated grades fared quite well, including the 1879-CC, the 1889-CC in AU gaining $200, and the 1892-CC and 1893-CC in MS63, as the latter issue advanced for another straight week. Several Deep Mirror Prooflike Dollars within the lowest published grade tier are moderately on the rise. Generic Peace Dollars in MS64 are now up $15 so far this year, and several late-date issues in MS60 are reaching higher ground as well.

PROOF SETS AND MINT SETS: Dealers are looking to pay higher Bids for Clad Proof Sets from the '70s, '80s and '90s. Silver Quarter Proof Sets from 2004 thru 2006 have dropped a bit along with a few of the early Silver Mint Sets as dealers re-organize their inventory. Many 2011/12 products will not be available after the Mint's last chance sale that ends December 17.

COMMEMORATIVES: A bit more was lost than was gained this week amongst Silver Commems as the $20 added to the sight-seen Bid of 1938 Boone PDS Sets in MS64 was somewhat overshadowed by the $30 drop for New Rochelle Halves in MS66. Current Bid support action did not wane, however, for many of the most actively traded issues. 1916 McKinley Gold Dollars in MS64 are still having trouble finding the bottom floor with another moderate drift lower recorded.

TYPE: Trading activity within the Circulated Type segment remained vibrant as Bidders are submitting yet higher offers for quite a bit of 19th and early 20th century material. Circ Silver of this period, from Capped Bust Dimes to Liberty Seated Dollars, is drawing most of the attention, but Shield Nickels with Rays in MS63 and MS64 have also sprung up as favorites among the lower denominated issues. Proof Type remains strong overall.

GOLD: Be it influence deriving from post-electoral politics or continuing economic and fiscal uncertainties, Gold Type is upbeat with buy orders from dealers anxious to stock up on the most actively traded material. $10 Indians and Type III $20 Libs in VF thru MS64, as well as $20 Saints up through MS65, are mostly enlivening this segment's trading activity.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

CAC Jumps to New Heights!

Five short years ago, CAC was established by leading members in the numismatic industry who recognized the need for a higher level of grading. While still in its youth, CAC has revolutionized the market and continues to experience impressive growth.

In short order, CAC's green sticker is trusted by dealers and collectors, signifying the mark of quality within a grade. To date, CAC has examined over 400,000 coins valued at $1.8 Billion, awarding the green sticker only if a coin meets CAC's stringent standards. What's more, CAC provides liquidity to the market. Since its inception, CAC has purchased coins in excess of $275,000,000.

Coins honored with the CAC sticker make it easy to identify those that are truly solid for the grade. Want confidence? Look for the green sticker.

SUCCESSFUL BALTIMORE — START TO FINISH
NUMISMATIC BULLION SOUGHT

The Market in Depth

The Baltimore expo is an old, established coin show which has become the third largest show in the nation, after the mammoth summer ANA convention and the huge FUN show conducted each January. Last week's Baltimore expo was no exception as it boasted strong public attendance and a very large bourse that was expertly run and professionally staffed. Auction lot viewing was steady and usually filled to capacity, resulting in fierce competition at the sale itself which was well attended. Even dealers affected by Hurricane Sandy were in Baltimore and were busy doing business at the show. A complete range of numismatic inventory was displayed at the expo, from rarities currently available on the market, to common circulated collector coins, bullion, U.S. currency, world coins & paper money, tokens and medals — and all other areas showed a "buzz." However, aside from the show, one mail order dealer who's been in business since the 1960s remarked that his customers, who have been regular buyers of circulated collector coins over the years, have been hurt by the recession and their buying habits each month have diminished to a fraction of what they were before the financial meltdown. At the other end of the spectrum, the upper end of the market is buzzing about the upcoming January sale of portions from the "Cardinal Collection" by Stacks Bowers which was exhibited in Baltimore. Another dealer remarked that anything related to Gold had sold well for him at the show and his better Gold inventory had been picked over. Bullion and numismatic material in bulk are also moving in the market, such as bags of circ. Morgan and Peace Dollars, and collector want lists are growing for various kinds of coins, grades and price levels throughout all the series. Pre-show wholesale trading was active at the hotels, as security was tight. Auction results were very strong for exceptional coins, both in rarity, scarcity and condition, but common coins in average grades to below average for the grade showed lackluster results. A special offering of early American and Colonial coins and medallions by Stack Bowers went over big as collectors of Colonials officially convened at the Baltimore expo.

Although the Thanksgiving holiday falls during this week, market activity doesn't skip a beat, as the Michigan State Numismatic Society holds their annual fall expo beginning, as usual, the day after Thanksgiving, on "Black Friday." This is a very busy, well-known regional coin show, but this year it's being conducted at a new location due to the loss of the Hyatt Hotel management, a venue at which the Michigan State show has been held since the 1970s. This year it will be held at the Macomb Community College South Campus in Warren, Michigan. Next week the last major show of the year will take place – the Money Show of the Southwest, in Houston, November 29 through December 1. Heritage will conduct a major auction, coin clinics will be offered for the public, and dealers from around the country will be in attendance.

This Week's Market

CENTS THRU HALVES: Several select Unc Jefferson Nickel rolls are lower as are a slew of Proof Lincoln Cents. Bullion sensitive Dimes, Quarters and Halves have increased in step with Silver Spot.

MERCURY DIMES: 1919, 1921, and 1921-D Mercs in MS63 and MS64 added to what has become a series of periodic and incrementally steady gains. Increased Bids should eventually bring this material to market and satisfy client want lists.

WALKING LIBERTY HALVES: Most early-date issues in Mint State and late-date issues in Gem are holding up well due to solid current Bid support at current levels. Demand is increasing for Circ Walkers, with visible buyers actively chasing the middle years in AU50 at Bid. Some are offering near MS60 money for attractive Sliders.

DOLLARS: Morgan Dollars in VG/Fine that made gains last week proceeded to add yet more stamina, and many of their peers in VF and MS60 joined in with them for another week of higher Bids. A second straight week of gains for 1879-CC and 1889-CC Dollars in AU50 resulted in a rise by as much as $500 over a two week stretch for the latter issues, and comparably graded 1893-CC Dollars are up now by $175 over the same period. Last week's resurging interest in early-date DMPL Dollars shifted to elevate Bids for several of the similarly graded issues comprising the later half of this series. Common date Peace Dollars in all circulated grades other than AU are reacting favorably to a slightly stronger Silver Spot. Bidders are looking a lot more interested in seeking out many of the better-date issues in Choice and Gem by way of Bid jumps.

PROOF SETS AND MINT SETS: Buyers are still looking for quantities of 2010-S 14-Piece Clad Proof Sets at a higher Bid of $55. Mint Sets are holding strong with dealers paying at or near Bid for just about every issue from 1959 through 2010.

COMMEMORATIVES: Some mild weakness persists among Silver Commems, and it caused slight quivers for Hawaiian Halves in MS63 and MS64, as well as for Wisconsin issues in MS66. 1904 Lewis & Clark Gold Dollars in MS66 have had a seemingly unshakable posture for quite some time, holding up against any downside pressures until now, as these issues drop $50.

TYPE: The high-rollers have been exerting some influence over the Type segment this week insofar as demanding more Flowing Hair Halves in MS63-64 for considerably higher terms. Such specimens are now sought at 6% and 11% over their previous Bids, respectively.

GOLD: Gold Spot's demonstrable firmness this week, combined with more worrisome financial prospects and fiscal uncertainties, did much to bolster confidence in the yellow metal and in much of the Gold Type material. The steady flow of orders for many of the fractional denominated issues and, Double Eagles in all but Ultra-Gem grades, was extended from last week's turnaround. Many analysts are looking for significant upward pressure in this segment with some believing it is already underway.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BULLION RALLIES DURING HOLIDAY
GOLD TYPE IN STRONG DEMAND

The Market in Depth

Gold rallied in world markets during America's Thanksgiving holiday last Thursday and the following day, Black Friday. Gold soared over $20 an ounce, from the $1,730 level, prior to the holiday, to higher than $1,750 on Friday. This is the first time Gold has reached this level in five weeks, after dipping in the interim to nearly the $1,680 floor during early November. This rally is a positive sign for the rare coin and precious metal industries as the calendar year winds down. Investors are edgy about the congressionally imposed "Fiscal Cliff" that looms on the economic horizon as the new year begins and are turning to Gold as a diversification into a safe haven investment. Silver also rallied during the same time, from the $33 level to more than $34. It had fallen to below $31 an ounce during early November. Many individuals are currently favoring Silver over Gold at this time, because to them it represents a better value. Platinum has been trading in a narrower and more stable range, closing today at $1,619. However, Palladium has seen a bigger boost while increasing by more than 11 percent since early November, from just below $600 to $668 now.

Coin dealers are experiencing very strong demand for numismatic Gold Type, in addition to their bullion businesses. With such low premiums over melt values, retail buyers are pouncing on vintage US Gold, minted prior to 1934. Old Gold that is spot-free and PCGS/NGC certified as well as CAC approved Gold Type coins are trading for strong prices. This material is especially popular because it gives new buyers reassurance that they are purchasing authentic and accurately graded coins. Generally, the entire coin market is strong at this time, with only a few pockets of weakness. With that being said, the Michigan State Numismatic Society held its usual Thanksgiving bourse, but at its new location on the campus of Macomb Community College in Warren, Michigan after more than 30 years at the Hyatt Regency Hotel in Dearborn. It was business as usual at this holiday Black Friday regional weekend show – which was teeming with buyers. This week, November 29-December 1, the Money Show of the Southwest wraps up the schedule of major shows for the year in Houston with more than 250 dealer booths and an auction by Heritage that runs until December 2.

Stack's Bowers pulled in over $16.8 million as the official auction house of the Baltimore show. Top lot honors went to the Long Island Potato Field NE Sixpence, graded VF Details by PCGS, which sold for $431,250.

This Week's Market

MERCURY DIMES: There is a lack of problem-free Merc material available relative to that of other segments. However, when scarce issues arise, especially those PQ examples with Full-Band detail, they often sell for a premium.

WALKING LIBERTY HALVES: Two D-Mint Walkers in MS64, the 1918-D and 1920-D, are among the early-date favorites this week and are each now Bidding $5,000 as the former issues jumped up by 11% to achieve this benchmark level, and comparably graded 1943 and 1946-D issues gained a bit of strength as well.

DOLLARS: There were no significant changes within any of the Dollar segments, looking beyond the moderate gains posted for many Morgan and Peace issues in VG thru XF resulting from a stronger Silver Spot. Nonetheless, two scarcer CC-Mint Dollars moved just a bit towards the positive side with 1879-CC cartwheels in MS64 advancing by $100, while 1885-CC issues in Gem recovered $20. Common Unc Peace Dollars are sought with MS63 examples advancing in this report.

PROOF SETS AND MINT SETS: 2010-S Clad Quarter Proof Sets are on a hot streak with a higher Bid of $25. Buyers are looking for 1982 and 1983 "homemade" Mint Sets in cello flat packs at $30 and $35. New 2012 8-coin Silver Proof Sets went on sale today for $150 with a max of 50,000 sets to be made, and an initial limit of two per household imposed by the US Mint.

COMMEMORATIVES: A 15% drop in Bid for 1892 Columbian Halves in MS66 set the Silver Commems segment back again, even though Monroe Doctrine Halves in MS63 and MS64 did some more catching up to regain long lost ground while those Norfolk issues lost $5 in each column clear across the entire grading spectrum. Spanish Trail Halves in MS66 are now down by 21% for the year. Discount activity once again ensnared those 1905 Lewis & Clark and Pan-Pac Gold Dollars in MS64, as well as 1917 McKinley issues in MS66. Proof Silver Eagles are no longer available from the Mint, and Bids have soared 28% to $73. Roman Numeral Proof Gold Eagles are also in demand with dealers paying Spot + $190 per ounce.

TYPE: Heraldic Eagle Draped Bust Dimes in VF thru MS65 are needed, and these issues in VF and XF have risen this year by 28% and 27%, respectively. No Drapery Liberty Seated Dimes in Gem rose to an even Bid of $2,500, but those 1853 Arrows & Rays Quarters in MS64 and MS65 didn't fare as well at their most recent auction appearance as many had expected. Proof Three Cent Nickels in PR65 gained $5.

GOLD: Higher Gold Spot has helped to spike demand for much of the generic Gold Type material. Liquidity benefits deriving from this segment should never be overlooked. With interest rates still at an all-time low and real-term gains from equities markets remaining unimpressive, many investors are still regarding the yellow metal as a prime capital storage vehicle. Premiums for $5 Libs with Motto and $20 Type III Libs and Saints in all grades other than Ultra-Gem are appreciably higher. $20 Saints in MS62 gained by $90 since last week and their peers in MS65 are up by 8% since the start of this month.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Sight-Seen wholesale prices for accurately graded U.S. Coins - Certified or Raw

Single copy price $5.00 Vol. L No. 49 **December 7, 2012** *. . .a Friday morning report on the Coin Market*

$9.8 MILLION REALIZED IN HOUSTON
GOLD FALLS BELOW $1,700

The Market in Depth

Dedicated members of the Greater Houston Coin Club worked hard, as usual, last weekend putting on a large regional coin show - *The Money Show of the Southwest.* Heritage held an auction totaling over $9.8 million. We have listed several highlights herein. More than 250 dealer tables were advertised, and the ANA brought in a great team, as well as coin clinics and exhibits for public consumption, including the ANA's Idler 1804 Silver Dollar and the Association's McDermott 1913 Liberty Nickel, both donated by the late dealers Aubrey and Adeline Bebee. Dozens of Boy Scouts attended a Saturday morning event, along with interested collectors who strolled around the bourse floor. However, wholesale business dominated the show for dealers, a trend that has become much more evident during the past several years, since the financial meltdown of 2008. Local "lifestyle" collectors, who were not part of the coin club show team, attended the bourse, but it continues to be very obvious nationally that interest and funding is lacking for average collectors to keep up their collections, along with their other diversions in life. And while the upper end of the market is very active, and some dealers might even say "hot," the well-heeled collector/investors buying at that level want to be largely anonymous and do not need to attend shows. They have engaged dealers as agents to represent them on the bourse and at auction.

Particular areas of the coin market are showing strength, like just about anything made of Gold, but especially better numismatic vintage Gold coins. Better early Walkers in high grades are tough to locate and are selling well when found. In addition to common Circ. Morgan Dollars selling well, because of their bullion related appeal, better Mint State Morgans have been presumed to be a little soft, but increasing numbers of dealers report an interest in this area and are buying them for inventory. Gem Type is trading well, but premium quality is of the utmost importance, and overly optimistic asking prices are slowing down sales for some very nice pieces. Solid, better date examples of most any series that seldom come up for sale are also being snatched up.

Even though long-term fundamentals favor precious metals, Silver and Gold took a hit since the Thanksgiving holiday because of better business performance being reported in the economy. Gold closed below $1,700 per ounce, which hasn't happened since early November. However, an impasse remains in Washington between Republicans and Democrats on how to handle the looming self-imposed "Fiscal Cliff."

This Week's Market

CENTS THRU HALVES: Uncirculated '83 and '84 rolls of all denominations are in demand as retailers are looking to create homemade sets since the US Mint skipped these years.

MERCURY DIMES: A 1925-D Merc, graded PCGS MS66FB, realized nearly $10,000 during Heritage s Auction in Houston last week, while a 1934-D in NGC MS67FB★ with CAC approval took in $2 115.

WALKING LIBERTY HALVES: A few wartime issued P-Mint Walkers in MS64 advanced just marginally by $1, as if to stay in step with last week's similar move by their comparably graded 1943 peers. Among Heritage's top Walker lots in Houston was a 1941 issue in PCGS MS68, one of only three graded as such with CAC approval, which sold for $8,225.

DOLLARS: A bit of downward pressure was exerted upon common date Morgan Dollars in MS63 and MS64, as these issues are most prone to occasional bulk wholesale trading activity. While those prolific 1881-S cartwheels in Gem are continuing to recover, those scarce 1901 Dollars in MS60 climbed higher by $200. These issues can often arise as altered counterfeits by way of a mintmark removal and should always be expertly evaluated. More than a few plus signs are scattered about the Peace Dollars segment, but those often beautiful and pristine looking 1925 issues in MS67 slumped down rather harshly with a $500 drop, while 1926-D and 1935-S issues in MS65 added moderately to their advances from two weeks ago.

PROOF SETS AND MINT SETS: A handful of Prestige Proof Sets are lower by way of dealer discounting. 2008-S Clad State Quarter Proof Sets remain hot, now at $31 Bid. Silver Mint Sets from 1959 thru 1964 are down a bit, primarily due to a lower Silver Spot.

COMMEMORATIVES: Three exceptional quality Silver Commem Halves graded by PCGS fared impressively well during the Houston auction event. A 1937 Antietam in MS68 pulled in $9,400, while a 1936-S Arkansas in MS67+ with CAC approval sold for slightly more, but both were topped by a 1936-D Texas in MS68 that went for $10,575. Pan-Pac Gold Dollars in MS64 continue to sag, and are down by $30 over the past two weeks.

TYPE: Draped Bust Quarters with Heraldic Eagle reverses in MS64 rose in Bid by 14% this week. Only 60 examples of this classic rarity, issued over a four year period with a combined original mintage of just under 555,000, have been graded as such by PCGS and NGC, and only three comparably graded examples are known of the very rare first year 1804 issue. All Proof Type material remains strong at their current levels.

GOLD: A downward corrective phase is once again taking grip of several generic Gold Type issues in sync with Gold Spot's descent back down to a level of below $1,700 per ounce. However, Type 1 Gold Dollars and $5 Libs with Motto in MS62 thru MS64 are among the few issues, along with select material in MS64, sustaining themselves through what may prove to be another bout of turbulence for this segment. High Reliefs in XF40 are needed with a buyer increasing Bid by $600 in order to shake some loose.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen** The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid INVESTOR/COLLECTOR NOTE The prices in this newsletter are from Dealer to Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~350,000~~ 400,000 coins with a market value over ~~$1.5~~ $1.8 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$250,000,000~~ $275,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 50 **December 14, 2012** *. . .a Friday morning report on the Coin Market*

MARKET MOSTLY STRONG AT YEAR END
COUNTERFEIT BULLION PROBLEMATIC

The Market in Depth

Areas of strength characterize the current coin market as the year winds down during December. The wholesale coin market is full of activity, unlike other times when things were downright slow for many dealers, such as during much of the 1990s. This is especially significant after recently having experienced the deepest recession since the Great Depression. But ironically, today's economic climate may be the biggest factor that's fueling today's coin market. Many individuals are concerned about what the economy's future may bring during the next several years and are looking for alternative areas in which to diversify their investment capital. And they're concerned about the value of the dollar, given the Federal debt commitments and the prospects for another looming economic catastrophe. Today's low interest rates are also a contributing factor because traditional bank savings accounts just aren't earning much. So for many, precious metals products carry some appeal, and this demand is spilling over into the numismatic market. For others, they see scarce and rare collectibles as a way to diversify their assets, and are able to have fun while doing so. January begins with the FUN show, from the 10th through the 13th which serves as a strong barometer of the health of the coin market. A further exciting test for strength of the rare coin market will be the sale of the major, multi-million dollar rarities from the Cardinal Collection January 22-24 by Stack's Bowers. A few highlights include a 1792 Half Disme, graded MS68 by NGC; a 1794 Flowing Hair Dollar graded PCGS Specimen 66 CAC; and a 1793 Chain Cent, America, No Periods, graded MS65BN by PCGS with CAC approval.

Some bullion buyers are thinking the numismatic side of the market makes sense because they are increasingly wary about the authenticity of Gold and Silver bars and ingots. Reports of tungsten filled Gold bars have been circulating in the marketplace and are causing dealers to take extra precautions when buying to avoid being stuck, which is especially painful at today's lofty price levels. Reports of fake brand name Silver bars are also circulating, and some dealers say that they've even encountered counterfeit Silver Eagles that are very deceiving and convincing, except that they are underweight. For these reasons, some buyers are purchasing 90% Silver US coins which gives them a sense of confidence. This is also a convenient way to hold Silver because they are divisible and can be sold off in small quantities as the price climbs. But as the Silver price rises, the way these coins trade may also change. Traditionally, bags of circ Silver were bought and sold based on $1,000 face value. A well-worn "slick" Barber or Walker was not a problem, and often welcome. At today's Silver prices, some dealers are requiring a minimum bag weight. On the opposite side, some buyers balk when their junk Silver bags contain modern coins, such as common Silver Proof State Quarters.

This Week's Market

MERCURY DIMES: 1919, 1921, and 1921-D Mercs in MS63 and MS64, which have been closely watched by market-makers and collectors all year, persisted in achieving another round of moderate gains. However, 1926 issues in MS65FB can't seem to make a turnaround as these Mercs have now lost 36% this year, while their D-Mint peers in MS64FB dropped by $40.

WALKING LIBERTY HALVES: Any Mint State Walker dated 1921 is sure to attract a lot of attention when it is offered, and P-Mint examples in MS60 thru MS64 are being sought at slightly higher Bids. 1933-S and 1934-S Walkers in Gem, dropped $50 and $250 respectively, while 1937-D and 1944-D Halves listed within the same grade column were reduced by a greater percentage rate

DOLLARS: Bids for common Morgan Dollars in all circulated grades climbed higher while a few better dates in various Mint State grades took in some serious advancing motion. However, those interesting 1882-O/S issues in MS64 couldn't fascinate enough Bidders to uphold their previous Bid and receded by $275. More on the positive end, 1902-S Dollars in MS67 gained 10%, and those 1921 Morgans in MS66 proved to be in short supply, enough so to boost these issues up by $100. Same year Peace issues in Gem edged a bit higher, while common dates in MS63 strengthened moderately as did their far less common peers in MS67. Philly made 1925 issues of this grade surged some 17%.

PROOF SETS AND MINT SETS: 1959 and 1960 Silver Proof Sets are higher as are a few late date 70's Proof Sets. Prestige and Legacy Proof Sets are needed at higher levels. Mint Sets are solid with a positive move for the 1963 sets.

COMMEMORATIVES: Decliners abound again among Silver Commems, and if the effects of a recession still persist to daunt the coin market, they certainly continue to do so within this segment as there have been as many as sixteen issues in Choice and Gem descending quite significantly this week. All of these decliners and many others that are solid to the top end for the grade sold for discounted levels through public auction, with consignors likely leaving money on the table.

TYPE: Next month's FUN show in Orlando will serve as the location for another major auction conducted by Heritage, which will feature an 1876-CC Twenty Cent Piece graded MS65 by PCGS. Of the mere 21 known examples of this rarity, only six have been certified at this grade level with just two finer. No Motto variety Liberty Seated Quarters in MS64 and Capped Bust Halves in AU and MS63 fell a bit behind the rest of the material within this segment insofar as retaining sufficient support at current Bid levels, and Walking Liberty Halves in PR64 are trading lower by $10.

GOLD: Type 1 Gold Dollars and $2½ Libs in MS64 are both in a fourth straight week of ascent, gaining 12% and 14% since last month, respectively, and circulated Quarter Eagles in VF20 thru AU50, which haven't given up any ground during Gold Spot's most recent pull-back, still seem to be high priorities when it comes to filling Gold Type orders.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

CAC Jumps to New Heights!

Five short years ago, CAC was established by leading members in the numismatic industry who recognized the need for a higher level of grading. While still in its youth, CAC has revolutionized the market and continues to experience impressive growth.

In short order, CAC's green sticker is trusted by dealers and collectors, signifying the mark of quality within a grade. To date, CAC has examined over 400,000 coins valued at $1.8 Billion, awarding the green sticker only if a coin meets CAC's stringent standards. What's more, CAC provides liquidity to the market. Since its inception, CAC has purchased coins in excess of $275,000,000.

Coins honored with the CAC sticker make it easy to identify those that are truly solid for the grade. Want confidence? Look for the green sticker.

CDN — Our 50th year...

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $5.00 Vol. L No. 51 **December 21, 2012** *. . .a Friday morning report on the Coin Market*

2012 MARKET ENDS SOLID
HAPPY HOLIDAYS — LAST ISSUE OF 2012

The Market in Depth

*This is the final issue of the **Coin Dealer Newsletter** for 2012. From all of us, have a happy and safe holiday season. The next CDN will be published January 4, 2013.*

The coin market closes 2012 with solid business taking place in the dealer-to-dealer wholesale market and strong, but segmented, retail sales. Economic conditions remain a significant influence in the current market, and so do loyal "lifestyle" collectors. The evolution of CAC and PCGS/NGC Plus grading systems of recognizing solid and premium quality coins for their grades is also a major market influence, especially when buying and selling high-grade, vintage material. Average circulated collector coins and moderns are not a part of these market dynamics. Among the many issues that occurred in 2012 include: fighting coin doctors, combating counterfeits and fake precious metal products which continue to plague the market, new eBay listing policies, tightening government regulations with new second hand dealer laws and trading restrictions, and IRS bank account seizures triggered by deposits that are frequent and under $10,000. On a more positive note, a few more rarities sold for more than $1,000,000 during 2012—$1.38 million for a Chain Cent; $1.15 million for a Silver Center Cent; $2.76 million for a Proof 1907 $20 Ultra High-Relief; and $1.84 million for the 1873-CC no arrows Dime.

Numismatics and precious metals continue to attract buyers who are looking for alternatives to traditional investment vehicles that are either poorly performing, or have high risks. Additional uncertainty about unresolved 2013 tax law changes are causing many to make decisions based on best guesses. Several analysts expect looming higher taxes and continued government spending associated with the 2013 "Fiscal Cliff" to push the economy right back into a deep recession. Some believe this will result in growing inflationary influences, ultimately causing significantly higher precious metal prices, which will similarly impact the coin market. This is reflected in business conducted at coin shops across the country, in that during the year and a half preceding 2012, business was fairly even between selling precious metal products and buying; but this year, the trend has changed to where there is more buying than there is selling by the public. Gold swung between about the $1,535 and $1,800 marks during 2012, while Silver bounced between $26.25 and $37.14 during the year. Platinum swung between $1,385 and $1,725, while Palladium ranged between $560 and $720. Today's levels show a bit of weakness with a $1,670 close for Gold; Silver settling under $32; a $1,594 close for Platinum; and Palladium at $691.

Legend-Morphy completed their Las Vegas sale December 13 and brought in $1.53 million, with a top lot of $109,250 for a 1913 $20 Matte Proof Saint-Gaudens graded PCGS PR66 CAC. A few additional highlights include a steel 1944-D Lincoln Cent (Mint error) in PCGS AU55 with a price realized of $63,250; a 1937-D 3-legged Buffalo Nickel graded PCGS MS65+ CAC for $40,250; an 1821 Capped Bust Quarter graded PCGS MS65 which hammered for $28,750; an 1894 Morgan, PCGS MS65 CAC, crossing the block for $39,675; and an 1807 $2½ PCGS MS63 CAC selling for $74,750; Bonhams also held an auction December 13, totaling nearly $1 million.

This Week's Market

CENTS THRU HALVES: A number of Kennedy Half Dollar rolls are needed at Bid or higher. Common 90% Silver Dimes and Quarters along with 40% Silver Halves are lower due to a declining Silver Spot

MERCURY DIMES: Merc enthusiasts are on the prowl for 1927-D in MS60 thru MS64, as well as for any 1929-D, 1931-D, and 1939-S Merc in any Mint State grade, with or without Full Bands. Bids have been boosted up slightly for all of these issues.

WALKING LIBERTY HALVES: Common date Walkers are finishing the year 15% below where they started in MS65 and MS63-MS64 examples are 5% lower. In retrospect, only key-date 1919-D issues in Gem advanced appreciably throughout this year with a gain of nearly 23%.

DOLLARS: Aside from 1881-S and 1882-S Morgan Dollars in MS67 maintaining their push for higher ground, this was another week of trading activity that boded well for certain better-date cartwheels in a variety of mostly Mint State grades. Of these, the scarcer issues continuing in their ascent are 1879-S (Rev. of '78) in MS63 and MS64, 1894-O in MS60, and those really hard to find, comparably graded 1901 examples, which are up 15% just this month due to a third straight week of gains. Peace Dollars remain relatively quiet, but Bid has jumped for 1923-D in MS63 and 1926-D in MS66 with the latter still $125 below the year's beginning Bid.

PROOF SETS AND MINT SETS: The majority of Proof Sets have visible buyers available at Bid, even though holiday sales have been light. Mint Sets are similar with respect to visible buyers being available at Bid with at least one dealer bid for 1975 and 1976 sets.

COMMEMORATIVES: This was another tough year for Classic Commems, but it concluded with neither any Silver nor any Gold issues posting further losses this week after a considerable amount of tenuousness re-emerged during the prior week's trading activity, particularly among the Silver Halves. Cincinnati issues in MS63 and MS64 forged ahead, as those of the latter grade are actually ahead this year by $25.

TYPE: This segment is ending the year on a strong note as Classic Head Large Cents in Fine/VF advanced quite significantly, and Flying Eagle Cents in XF thru MS60 are higher, along with a multitude of mostly small Silver denominations. Choice and Gem Proof Type III Three Cent Silver Pieces are getting more attention these days, and some comparably graded Three Cent Nickels have done well at recent auctions. An 1866 example, graded PCGS PR67DCam, with CAC approval, realized $18,400 during this past weekend's Teletrade sale. Reduced Size Bust Quarters in MS60 are finishing the year up by 20% as current Bid support remains strong for most Draped Bust, Capped Bust, and Liberty Seated Halves and Dollars in Good thru AU, while Barber issues in PR60 are all up moderately.

GOLD: The fact that much of the generic, albeit scarcer, small denominated Gold Type material is gaining amidst the multiple declines among the larger and more common $10 and $20 issues, perhaps, suggests that there may be more confidence in this segment among market-makers than in the overall bullion sensitive market. Type III Gold Dollars in MS62 were among the top Gold Type gainers this year with a 43% surge, and Bidders still welcome Circ $2½ Libs and Indians with open arms.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. CAC and plus graded coins *may* trade for a premium to Bid. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.
